Subject: [EXTERNAL] Against Smart Meters

Reference BPU Docket #: EO20080545

Good Morning,

I am writing as a concerned citizen and homeowner of Blairstown, NJ. My husband and I have recently been made aware of JCP&L's intent to install smart meters to all homes in the area over the next three years. We are adamantly against this, as we make conscious efforts to lower our family's EMF exposure both in and around our home. This is something that we believe, has not been adequately studied in terms of effects on human health, and would be a constant source of EMF signal exposure directly on our home, in which we would have no control over. Please consider allowing residents to opt out of this new equipment.

Sincerely,
Lynn Waclawski
