**Re: TM14030234**

Dear Secretary Izzo:

*TT 14050399*

Enclosed for filing are an original and three copies of tariff pages that revise Teleport Communications America, LLC ("TCAL") Tariff B.P.U.-N.J.-No. 6.

The following pages are included in this filing:

Tariff B.P.U. N.J. – No. 6  
Section 5 – Pages 1, 11 & 14  
Price List – Pages 11.1 & 11.2

On April 24, 2014 the Board of Public Utilities approved the Joint Petition of Teleport Communications New York ("TCNY") and Teleport Communications America ("TCAL") For Approval of an Internal Merger and Transfer of a License as Part of Internal Corporate Restructuring. This tariff filing updates the existing TCAL Access Tariff to include the services that are offered solely by TCNY. There are no changes being made to terms, rates, or conditions. Customers were informed of this change by a bill message that appeared during April and May. A copy is included as Attachment 1.

The enclosed tariff pages have an effective date of June 1, 2014.

Acknowledgement and date of receipt of this filing are requested. A postage-paid, pre-addressed envelope is enclosed for this purpose.

Sincerely,

Tim O'Hara

**ATTENTION CUSTOMERS WITH LOCAL BUSINESS SERVICES PROVIDED BY CERTAIN TCG OR TELEPORT COMPANIES\***

Subject to state regulatory approvals, if any, beginning on or about May 31, 2014 Teleport Communications America, LLC, will provide the intrastate services previously provided by various TCG and Teleport companies. This administrative change will not impact the rates, terms, or conditions applicable to these services. To view service publications go to [www.att.com/servicepublications](http://www.att.com/servicepublications) and click on Service Guides and/or Tariffs. If you have any questions, please contact the toll free number on your invoice.

\*This change does not impact customers of TCG South Florida and Teleport Communications Atlanta, Inc. TC Systems states excluded are: ID, LA, ME, MS, MT, ND, NM, NY, OK, SC, SD, WY.

ISSUED: MAY 1, 2014  
EFFECTIVE: JUNE 1, 2014

## 5. SUPPLEMENTAL SERVICES

Sections 5.6 through 5.8, following, apply solely to customers formerly served by Teleport Communications New York.

(N)  
(N)

### 5.1 LOCAL ACCESS SERVICE

#### 5.1.1 Description

Local Exchange Access Service provides trunk-side access to the Company's end office switches in the terminating direction only, for use by authorized providers of local exchange telephone service for the completion of local exchange calls that originate and terminate to the Company's End Users in the State of New Jersey. Local Exchange Access Service must be provided to a point of Interface (POI) which will be jointly established by the Company and the Customer at a location within the State of New Jersey and in the same LATA as the Company end office at which the local exchange call will terminate. Local Access Service provides a transmission path between the POI and the Company's End User.

#### 5.1.2 Obligations Of The Local Exchange Company (LEC)

- A. The Local Exchange Company may be required by the Company to submit to an annual audit of the authorized local exchange company's billings for Local Access Service. The audit requirement is needed to ensure accurate billing between local exchange calls and non-local exchange calls.
- B. The authorized local exchange company will be required to provide, upon request by the Company, a forecast of total usage for each trunk group or facility ordered from the Company for each POI used in a Local Access Service arrangement.

5. SUPPLEMENTAL SERVICES

The following applies solely to customers formerly served by Teleport Communications New York.

(N)

5.6 Data Service

The following Data Service will be provided where facilities permit on an individual case basis (ICB).

5.6.1 Reserved For Future Use

5.6.2 Fiber Distributed Data Interface (FDDI) Service

FDDI Service is designed as a customer-private, customer-dedicated network service. Its fiber optic ring architecture transports data at an aggregate channel speed of 100 Mbps and features automatic protection switching to eliminate service outages in the event of a station or facility failure. FDDI Service is available in either two-point or multi-point channel configurations.
