Re: Transcription of Public Hearing for Water Asset Management Agreement

Dear Sirs/Madams:

Enclosed you will find a copy of the transcription which resulted from the August 31 Public Hearing held by the Township Council in accordance with the New Jersey Statute requiring same. Only one company was present in the public audience, Utility Services Group, and you will see two members from their company spoke. No one else from the public spoke, but the council meetings are broadcasted live on Channel 3, so maybe a home owner may care. Enclosed is the summary of the data which was submitted after the meeting, a letter from the painting union.

You can follow the line of questioning by the governing body and the public hearing has been held open for anyone wishing to supplement the record.

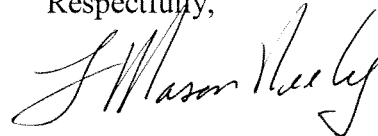

At a prior date, I transmitted the Contract and other documents. Now I am providing you with the supplemental material (Public Hearing Transcript and letter submitted to the file).
