RE: I/M/O the Petition of Aqua New Jersey, Inc. for Approval of Municipal Consents to Provide Water and Wastewater Service to Areas of the Township of North Hanover and the Borough of Wrightstown and Other Required Approvals
BPU Docket No.: WE13121186

Dear Secretary Asbury:

Enclosed for filing please find an original and ten (10) copies, plus one additional copy, of the Conforming Tariffs of Aqua New Jersey, Inc. (the "Company") in the above-referenced matter. Please arrange to have the additional copy marked "Filed" and return in the enclosed self-addressed stamped envelope.

These tariffs are being filed pursuant to the Board Order in the above-referenced docket in which the Company received approval to provide water and wastewater service to the residential community of Spartan Village located in both the Township of North Hanover and the Borough of Wrightstown. The Company agreed to charge flat rates for water and wastewater service until the installation of individual meters could be completed which was estimated to be one year after Board approval. The installation of individual meters has been completed and the Company plans to begin rendering metered service under its Main Division rates effective October, 3, 2015. These tariffs reflect the addition of the Borough of Wrightstown to the Company's service territory.

If you have any questions or concerns, please feel free to contact me.

Sincerely,

William C. Packer
Controller

AN INTRODUCTION TO CUSTOMERS

The approved tariff can be found on the Company's website, www.aquaamerica.com for your review. The Company is responsible to maintain its tariff with any changes approved by the Board of Public Utilities and must, by State Law and regulations, maintain it in exactly the same format as the Company's tariff on file at the Board of Public Utilities, 44 S. Clinton Avenue, Trenton, New Jersey 08625. The Division of Water and Wastewater is on the 7th floor.

If, after you review this tariff and discuss it with appropriate Company employees, you still have questions regarding clarification or interpretations, please contact the Board of Public Utilities, Division of Water and Wastewater, Bureau of Rates and Tariff Design at (609) 341-9188 as well as, 1-800-624-0241.

You have the right to review this tariff at the Company's offices or at the Board's office in Trenton. Your inquiries will be handled by the Board's staff in an expeditious manner in order to protect your rights as well as those of the water and/or sewer company. Please feel free to exercise this right by telephone or by visiting the Board's offices at any time between the hours of 9:00 a.m. to 4:00 p.m., Monday through Friday, or by writing a letter. The letter should contain the writer's name, address and phone number-including the area code. If the writer is a customer of record, the account number should be included.

The Company also has available in its office a leaflet entitled "An Overview of Common Customer Complaints and Customer Rights." This is a summary of the most frequent customer complaints and rights; it does not include all customer rights or utility obligations.

The Board of Public Utilities is responsible for the final interpretation and enforcement of a utility's tariff provisions and rates. The utility is bound by New Jersey statutes and the Board's regulations. If a conflict should exist in the tariff that is detrimental to the customer, the Board's regulations supersede the tariff provision absent specific approval to the contrary by the New Jersey Board of Public Utilities. A utility company may provide for more liberal treatment than that provided for in the Board's regulations.

Filed pursuant to decision and order of the Board of Public Utilities dated August 20, 2014, in Docket No. WR 14010019.

AN OVERVIEW OF COMMON CUSTOMER COMPLAINTS AND CUSTOMER RIGHTS

- (1) No public utility shall refuse to furnish or supply service to a qualified applicant (Board Order CX86602155).
- (2) The utility shall not place the name of a second individual on the account of a residential customer unless specifically requested by said second individual (N.J.A.C. 14: 3-3.2).

DEPOSITS

- (3) If after notice of the methods of establishing credit and being afforded an opportunity, a customer has not established satisfactory credit, the utility may require a deposit. The deposit amount shall be determined by taking the cost of service for one year, dividing by twelve and multiplying that figure by 2. EX: 12 months total bills = \$763.54 divided by 12 = \$63.63 multiplied by 2 = \$127.26 deposit, or \$127.
- (4) The utility must furnish a receipt to any customer posting a deposit. The deposit will be returned with simple interest at a rate established annually by the Board of Public Utilities. Once the customer has established satisfactory credit with the utility, the deposit shall be returned to the customer with interest due. The customer has the option of receiving the deposit refund either by a check or a credit on the account. If a residential customer's deposit is not returned, the utility shall credit the customer's account with the accrued interest once every twelve months (N.J.A.C. 14:3-3.5).
- (5) Where a water or sewer utility furnishes unmetered service, for which payment is received in advance, it may not require a deposit (N.J.A.C. 14:3-3.4).

DEFERRED PAYMENT AGREEMENTS

- (6) A customer is entitled to at least one deferred payment plan in one year. In the case of a residential customer who receives more than one utility service from the same utility (EX: water and sewer; gas and electric) and the amount which is in arrears is a combination of those services, the utility shall offer a separate deferred payment agreement for each service based on the outstanding balance for that service. The Company MUST re-negotiate the deferred payment agreement should the customer's financial situation change significantly. The Company must also issue a new discontinuance notice each time it

DEFERRED PAYMENT AGREEMENTS (CONTINUED)

intends to shut off service, including defaults on the terms of the agreement. In the case of a residential customer who receives more than one utility service from the same utility and has subsequently entered into an agreement for each separate service, default on one such payment agreement shall constitute grounds for discontinuance of only that service (N.J.A.C. 14:3-7.7).

(7) A water and sewer utility shall not discontinue service because of nonpayment of bills in cases where a charge is in dispute provided the undisputed charges are paid and a request is made to the Board within five (5) days for investigation of the disputed charge. The Company must advise the customer of their right to appeal to the Board of Public Utilities (N.J.A.C. 14:3-7.13(a)).

(8) A customer has at least fifteen (15) days to pay a bill. A water and/or sewer utility may not discontinue water and sewer service unless written notice giving the customer at least ten (10) days notice prior to the proposed discontinuance. The notice shall not be given until after the expiration of the said fifteen (15) day period (N.J.A.C. 14:3-3A.3). The notice shall contain sufficient information for the customer to notify the Board of Public Utilities of the nature of the dispute. The utility shall make a good faith effort to determine which of its residential customers are over 65 years of age, and shall make good faith efforts to notify such customers of discontinuance of service by telephone in addition to notice by regular mail. This effort may consist of an appropriate inquiry set forth on the notice informing customers that they may designate a third party to receive notice of discontinuance. Utilities shall annually notify all residential customers that, upon request, notice of discontinuance of service will be sent to a designated third party as well as to the customer of record (N.J.A.C. 14:3-3A.4).

(9) Public utilities shall not discontinue residential service except between the hours of 8:00 a.m. and 4:00 p.m., Monday through Thursday, unless there is a safety related emergency. There shall be no involuntary termination of service on Fridays, Saturdays, and Sundays or on the day before a holiday or on a holiday absent such emergency.

(10) The occupant of a multiple family dwelling has the right to be notified of a pending service discontinuance at least fifteen (15) days prior to the service being discontinued.

(11) A customer has the right to have any complaint against the utility handled promptly by that utility. Board Order (Docket No. CO8602155).

(12) Each utility shall, upon request, furnish its customers with such information as is reasonable in order that the customers may obtain safe, adequate and proper service (N.J.A.C. 14:3-3.3(a)). Each utility shall inform its customers, where peculiar or unusual circumstances prevail, as to the conditions under which sufficient and satisfactory service may be secured from its system (N.J.A.C. 14:3-3.3(c)). Each utility shall supply its customers with information on the furnishing and performance of service in a manner that tends to conserve energy resources and preserve the quality of the environment (N.J.A.C. 14:3-3.3(d)).

METERS

(13) The utility must provide for one free meter test within a year if the customer so requests it. The customer can request that the Company or the Board may test the meter. A meter of a customer who has a complaint filed with the Board reflecting on the accuracy of the meter shall not be removed from service by the utility during the pendency of said complaint or during the following thirty (30) days unless otherwise authorized or directed by the Board (N.J.A.C. 14:3-4.8(c)). **When a billing dispute is known to exist, the electric, gas or water utility shall, prior to removing the meter, advise the customer that the customer may have the meter tested by the utility or may have the Board either conduct a test of the meter or witness a testing of the meter by the utility, and that in any event the customer may have the test witnessed by a third party (N.J.A.C. 14:3-4.5(c)). A meter test arising from a billing dispute may be appropriate in instances which include, but are not limited to, unexplained increased consumption, crossed meters, consumption while an account is vacant or any other instance where the meter's accuracy might be an issue in a bill dispute (N.J.A.C. 14:3-4.5(d)).**

(14) Whenever a water meter is found to be registering fast by more than one and one-half percent, an adjustment of charges shall be made in accordance with the following: (1) If the date when the meter had first become inaccurate can be ascertained then the adjustment shall be such percentage as the meter is found to be in error at the time of test adjusted to 100 per cent on the amount of the bills covering the entire period that the meter has registered inaccurately; (2) In all other cases the adjustment shall be such percentage as the meter is found to be in error at the time of the test on one-half of the total amount of the billing affected by the fast meter adjusted to 100 percent since the previous test. No adjustment shall be made for a period greater than the time during which the customer has received service through that meter. No adjustment shall be made for a meter that is found to be registering less than 100 percent except in the case of meter tampering, non-registering meters or in circumstances in which the customer should reasonably have known that his bill did not reflect his usage (N.J.A.C. 14:3-4.6).

(15) A utility must maintain records of customers' accounts for each billing period occurring within a six (6) year period. Such records shall contain all information necessary to permit computation of the bill (N.J.A.C. 14:3-6.1(b)).

STANDARD TERMS AND CONDITIONS

EMERGENCY RESPONSE DUE TO EXTRAORDINARY DEMAND AND/OR DIMINISHED
SUPPLY

1.1 Discontinuance of service for failure to comply with use restrictions.

For compliance by the utility in good faith with any governmental order or directive, notwithstanding that such order or directive subsequently may be held to be invalid, the Company may, upon reasonable notice, as set forth in sections 2.1 and 2.3 herein, suspend, curtail, or discontinue service pursuant to N.J.S.A. 48:2-23, N.J.S.A. 48:2-24, and N.J.A.C. 14:3-3A.1 and N.J.A.C. 14:3-3A.2 for any of the following acts or omissions on the part of the customer:

(1) Connecting or operating any piping or other facility, including but not limited to, lawn sprinkling on the customer's premises in such a manner as to adversely affect the safety or adequacy of service provided to other customers present or prospective; or

(2) Continuing waste of water by customers after notice from the utility through improper or imperfect pipes, fixtures, or failure to comply with restrictions; or

(3) Failure to comply with the standard terms and conditions contained in this tariff or failure to comply with any state law, or the rules, regulations, orders or restrictions of any governmental authority having jurisdiction.

1.2 Water service shall be restored when the conditions under which such service was discontinued, as specified above, are corrected and upon the payment of the SPECIAL RESTORATION OF SERVICE CHARGE OF \$100.00 FOR EACH RESTORATION.

Filed pursuant to decision and order of the Board of Public Utilities dated August 20, 2014 in Docket No. WR 14010019.

EMERGENCY RESPONSE DUE TO EXTRAORDINARY DEMAND AND/OR DIMINISHED
SUPPLY (CONTINUED)

2.1 The Company will endeavor to provide a regular and uninterrupted supply of water through its facilities. However, if because of emergencies beyond the control of the Company, including governmental mandate, service is interrupted, irregular, defective or fails, the Company will not be liable for damage or inconvenience resulting therefrom. In the event of an extraordinary demand and/or diminished supply, the Company may restrict the use of water whenever the public welfare may require it and, if necessary, may shut off the water in its mains and pipes. In such cases the Company shall advise its customers by placing a prominent advertisement detailing the conditions and restrictions in a newspaper of general circulation in the utility service area. The notice will state the purpose and probable duration of the restriction or discontinuance. Failure to provide regular and uninterrupted service due to breakdowns is covered under other sections of this tariff.

2.2 The Company may restrict water service during certain periods, where the Company advises the Board of Public Utilities, in order to protect the public water supply, or otherwise to comply with any regulations, orders or decrees issued by the Governor of New Jersey or the Department of Environmental Protection pursuant to the Water Supply Management Act. Such interruptions or restrictions shall be reported to the Department of Environmental Protection and the Board by each utility by the speediest means of communications available, followed by a detailed written report, pursuant to the provisions of N.J.A.C. 14:3-3.9(b), within one week. Thereafter the utility shall provide weekly reports for the duration of the emergency.

2.3 When the supply of water to individual customers is to be shut off or curtailed for failure to comply with emergency water restrictions imposed because of extraordinary demand or diminished supply, the Company shall advise its customers by placing a doortag on the front door of the home of the individual(s) in violation of the restrictions, at least twenty-four (24) hours prior to discontinuance or curtailment, or by giving another form of notice acceptable to the Board. The Company will advise business and commercial customers, in writing, by mailing a notice to the customer's billing address. In the case of doortags, they shall be sequentially numbered and include the date, time and nature of the violation and the procedure for restoration of service. All such notices shall be accounted for by the utility.

RATE SCHEDULE NO. 2
PRIVATE FIRE PROTECTION SERVICE - ALL EXCEPT BERKELEY (CONTINUED)

Customers desiring a separate service connection for private fire service are required to make separate written application for such service on forms prescribed by the Company. Private fire service installations are made in accordance with the provisions of this tariff regarding the installation of service and connecting pipes and other facilities.

Service lines designated for private fire protection are installed for customers requiring a private fire service to supply sprinkler heads or hose connections. Any connection in which sprinkler heads and / or hose connections are supplied through a domestic service connection are not considered as part of a private fire protection service and shall not be deemed as part of this section (i.e., limited fire protection).

The connection shall be in accordance with the applicable laws including but not limited to those of the BPU, DEP and all federal, state and local agencies

The Company shall not be liable for any loss, injury, casualty or damage resulting from fire or water, or other agency, resulting from the supply or use of water service or the failure thereof, which may occur on account of the installation or presence of a private fire service connection, or from the presence or operation of the Company's structures, equipment, pipes, appliances or devices on the customer's premises, or connected therewith.

The Company may not discontinue water service unless it has provided written notice giving the customer at least thirty (30) days notice prior to the proposed discontinuance. However, in case of fraud, illegal use, or when it is clearly indicated that the customer is preparing to leave, immediate payment of accounts may be required, and service may be discontinued without further notice.

When hydrants are attached between the main and the meter, a charge per hydrant will be made. The installation and maintenance of fire hydrants and the supplying of water through such hydrants is for the sole use of authorized fire-fighting personnel for the control and extinguishment of any fire.

No additional charge shall be made for water used in testing or for fire. However, should it be determined by the water company that water is being, or has been, used through a fire protection connection for other than fire protection or testing purposes, the water company shall have the right to charge for the water used based on its "General Metered Service" tariff and to order said unauthorized use to cease immediately subject to the termination of the service.

RIDER ED
ECONOMIC DEVELOPMENT PROGRAM

APPLICABILITY

Customers receiving service under Rate Schedules No. 1 and No. 2

CHARACTER OF SERVICE

Commitments for service under third provision will be made available to qualifying customers.

CREDIT

A credit equal to 65% of the eligible portion of a customer's consumption charge(s) as described below for the newly constructed, leased or purchased space, as determined by AQUA NEW JERSEY, INC., will be applied to the customer's monthly water bills for the first year, decreasing to 45% in the second year, 25% in the third year, 10% in the fourth year and no reduction in subsequent years. The credit must commence within nine months after receiving written commitment from AQUA NEW JERSEY, INC. for Economic Development Program. In no case shall application of this Service result in a negative charge for consumption.

For new customers, the credit shall apply to all consumption subject to certain caps as measured by AQUA NEW JERSEY, INC. A new customer, for purposes of this Service, shall be defined as a customer who has not previously received water from AQUA NEW JERSEY, INC. within the previous two years, or whose newly leased or purchased space is separately metered.

For existing customers, the credit shall apply only to that consumption, as measured by AQUA NEW JERSEY, INC., which is in excess of the highest comparable consumption during the most recent 10 year period without such expansion. Existing customers shall also be subject to the caps on eligible consumption. An existing customer for purposes of this Service, shall be defined as a customer whose newly leased or purchased space is not separately metered from the existing service.

The Company reserves the right, after proper notification to the Board of Public Utilities, to cancel this tariff at any time for new applicants. The Company also reserved the right to determine the bona fide nature of any applicant wishing to utilize this tariff. This tariff shall be open for a minimum of two years subject to the caps on eligible consumption.

ECONOMIC DEVELOPMENT PROGRAM (CONTINUED)

ADDITIONAL CREDIT

An additional credit of 5% per year for the first four years will be added to the above credit for all its customers who qualify for the Economic Development Program and are also in a "priority location" (Urban Enterprise Zones) as defined by the New Jersey Economic Development Authority. The credit would be based on the same parameters as above and equate to a 70% credit for the first year, 50% for the second year, 30% for the third year, and 15% for the fourth and final year.

ELIGIBILITY

Each customer will be required to sign an Application for Economic Development Service including an estimate of additional consumption. The customer will also be required to participate in a conservation audit performed by the Company. The customer must remain on the same rate schedule as in the base year period throughout the four-year term of the program. AQUA NEW JERSEY, INC., upon verification of eligibility, will provide the customer with a written commitment for Economic Development Program Service.

To be eligible, a customer must lease or purchase new or vacant space for manufacturing, retail, research and development, office or warehousing. The effective date of the lease or purchase must be after the date of this rate schedule. The total additional leased or purchased building space must equal or exceed 2,000 square feet.

Qualifying vacant building space must be vacant for a minimum of six months, as determined by AQUA NEW JERSEY, INC., prior to receiving a commitment for the Economic Development Program.

ECONOMIC DEVELOPMENT PROGRAM (CONTINUED)

Customer must be adding at least two permanent full-time employees (owner included) to their payroll at the site receiving Economic Development Program Service. Relocation or consolidation of employees based in AQUA NEW JERSEY, INC.'s service territory without employment growth, will not qualify. Employment growth will be confirmed by AQUA NEW JERSEY, INC. in conjunction with the New Jersey Department of Labor and/or affidavit from the customer. AQUA NEW JERSEY, INC. reserves the right, at its discretion, to periodically verify employment increases and sustained level of employment. If after verification the required employment level has not been sustained, Rider ED will no longer be applicable.

The Company reserves the right, after proper notification to the Board of Public Utilities, to cancel this tariff at any time for new applicants. The Company also reserves the right to determine the bona fide nature of any applicant wishing to utilize this tariff. This tariff shall be open for a minimum of two years subject to the caps on eligible consumption.

LIMITATIONS OF SERVICE

This service is not available to federal, state, county or local government or governmental entities. In addition, the Company shall limit eligibility into the pilot economic development program so that the following total maximum consumption factors should not be exceeded:

- a) The Company shall limit its economic development discounts so that, over a period of 12 consecutive months, to be measured at the end of each month, the Company sells no more than 52 million gallons under the Economic Development Rider. If the 52 million gallon cap is exceeded in any 12 month period, then the Company shall immediately cease accepting new applicants under the Economic Development Rider.
- b) There shall be a cap on the discount for all water sold per month to any individual customer as follows:
 - i) no more than 15,000 gallons per month shall be subject to discount under the Economic Development Rider for customers having a meter size of less than one inch.
 - ii) no more than 30,000 gallons per month shall be subject to discount under the Economic Development Rider for customers having a meter size of one inch, 1.5 inches, or two inches.

STANDARD TERMS AND CONDITIONS

RULES AND REGULATIONS APPLICABLE TO SEWER SERVICE

1. General Rules:

Aqua New Jersey, Inc. hereby adopts the Regulations for Sewer Utilities promulgated by the Board of Public Utilities of the State of New Jersey, which Regulations are incorporated herein by reference thereto.

2. Definitions:

"Company" as herein used shall be Aqua New Jersey, Inc., the party rendering sewer service.

"Customer" as herein used shall be the party contracting for service to a property, or the party receiving and paying for the service, whichever is appropriate.

"Building Drain" shall mean that part of the lowest horizontal piping of a drainage system which receives the discharge from drainage pipes inside the walls of the building terminating five (5) feet outside the face of the building wall from whence it becomes known as the building sewer.

"Building Sewer" shall mean the extension from the building drain to service line and/or other point of connection to the Company system.

"Biochemical Oxygen Demand", denoted hereinafter as "B.O.D.", shall mean the quantity of oxygen utilized (demanded) in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days when incubated at 20°C.

"Suspended Solids" shall mean solids that either float on the surface of or are carried in suspension in water, sewage or industrial wastes, and which are removable by laboratory filtering.

Issued: February 19, 2014

Effective Date: March 1, 2014

By: Nicholas V. Asselta, President
10 Black Forest Road
Hamilton, NJ 08691

Filed pursuant to decision and Order of Board of Public Utilities dated February 19, 2014, in Docket No. WR13070686.

"pH" shall mean the logarithm to the base ten of the reciprocal of the weight of hydrogen ions in moles per liter of solution.

"Garbage" shall mean solid wastes from domestic and commercial preparation, cooking, dispensing or marketing of food or food products and from the handling, storage and sale of produce.

"Properly Shredded Garbage" shall mean garbage that has been shredded to such a degree that all particles will be carried freely under the flow conditions normally prevailing in the sewerage system with no particle greater than one-half inch (1/2") in any dimension.

"Slug" shall mean the discharge of water, sewerage, or industrial waste which in concentration of any constituent or in quantity of flow exceeds for any period of duration longer than fifteen (15) minutes more than five (5) times the average twenty-four hour flow or concentration under normal operating conditions.

3. Discontinuance of Service:

By Customer: All agreements covering sewer service for residential customers shall continue in full service and effect unless and until Aqua New Jersey, Inc. receives notice from the customer of record to discontinue service. Aqua New Jersey, Inc. will discontinue service within two (2) days of the receipt of customer's request.

By Aqua New Jersey, Inc.: Aqua New Jersey, Inc., upon reasonable notice, when it can be reasonably given, may suspend or curtail or discontinue service for the following reasons: (1) for the purpose of making permanent or temporary repairs, changes or improvements in any part of its system; (2) for compliance in good faith with any governmental order or directive regardless of whether such order or directive subsequently may be held to be invalid; (3) for any of the following acts or omissions on the part of the customer:

- (a) non-payment of a valid bill due for service furnished at a present or previous location, in accordance with N.J.A.C 14:3-3A.2. However, non-payment for business service shall not be a reason for discontinuance of residence service except in cases of diversion of service pursuant to N.J.A.C. 14:3-7.8; (b) refusal to contract for service where such contract is required;

Hamilton, NJ 08691

Filed pursuant to decision and Order of Board of Public Utilities dated February 19, 2014, in Docket No. WR13070686.

(c) connecting and operating in such manner as to produce disturbing effects on the service of Aqua New Jersey, Inc. or other customers; (d) failure of the customer to comply with any of these Standard Terms and Conditions; (e) where the condition of the customer's installation presents a hazard to life or property; or (f) failure of customer to repair any faulty facility of the customer; (g) tampering with any facility of the utility; (h) fraudulent representation in relation to the use of service; (i) customer moving from the premises, unless the customer requests that service be continued; (j) providing a utility's service to others without approval of the utility;

(4) for nonpayment of a deposit, in accordance with N.J.A.C. 14:3-3A.9, or (5) for refusal of reasonable access to customer's premises in accordance with N.J.A.C 14:3 - 3.6 for necessary purposes in connection with rendering of service, including meter installation, reading or testing, or the maintenance or removal of the property of Aqua New Jersey, Inc.

When a customer is disconnected for any of the above reasons, the customer prior to reconnection will be required to correct the conditions under which service was discontinued and to pay a reconnection charge representative of the Company's cost of disconnecting and restoring service.

A notice of discontinuance sent to the customer shall be postmarked no earlier than 15 days after the postmark date of the outstanding bill. The notice of discontinuance for nonpayment shall provide the customer with at least 10 days written notice of the Company's intention to discontinue service, in accordance with N.J.A.C 14:3-3A.3.

Aqua New Jersey, Inc. may not discontinue service because of non-payment of bills in cases where a charge is in dispute, provided that the undisputed charges are paid and the customer has made a request to the Board for an investigation of the disputed charge. In such cases, Aqua New Jersey, Inc. shall notify the customer that unless steps are taken to invoke formal or informal Board action within 5 business days, service will be discontinued for non-payment in accordance with N.J.A.C. 14:3 - 3A.

10 Black Forest Road
Hamilton, NJ 08691

Filed pursuant to decision and Order of Board of Public Utilities dated February 19, 2014, in Docket No. WR13070686.

A public utility shall not discontinue residential service involuntarily except between the hours of 8:00 AM and 4:00 PM, Monday through Thursday, unless there is a safety-related emergency. There shall be no involuntary discontinuance of service Fridays, Saturdays and Sundays or on the day before a New Jersey State holiday or on a New Jersey State holiday absent such emergency.

If the customer meets the conditions for a medical emergency set out in N.J.A.C. 14:3-3A.2(i), the Company shall not discontinue service except in accordance with N.J.A.C. 14:3-3A.2(i).

Aqua New Jersey, Inc. shall make every reasonable effort to determine when a landlord-tenant relationship exists at residential premises being served. If such a relationship is known to exist, and if the tenants are not the customers of record but are end-users as defined at N.J.A.C 14:3 - 1.1, service cannot be shut-off unless Aqua New Jersey Water, Inc. has, notwithstanding the time periods in N.J.A.C 14:3 - 3A.5, given a 15-day written notice to the owner of the premises or to the customer of record to whom the last preceding bill was rendered. The Company shall use its best efforts to determine the names and addresses of each tenant to provide copies of the discontinuance notice to all tenants. In addition, the Company shall provide tenants with a 15-day written notice, which shall be hand-delivered, mailed or posted in a conspicuous area of the premises and in the common areas of the multiple family premises.

The Company shall offer the tenants continued service to be billed to the tenants, unless Aqua New Jersey, Inc. demonstrates that such billing is not feasible. The continuation of service to a tenant shall not be conditioned upon payment by the tenant of any outstanding bills due upon the account of any other person. Aqua New Jersey, Inc. shall not be held to the requirements of this Tariff Section if the existence of a landlord-tenant relationship could not be reasonably ascertained.

4. Application for Service Connection:

Application by a residential customer for the establishment of service may be made at the utility's office in person, by mail or

telephone. The utility will provide a written application to the customer for signature, which is required.

5. Special Requirements Relating to Sewer Service:

Separate and independent service lines shall be installed for each customer. All building drains and building sewers shall be the responsibility of the customer and shall be installed and maintained by the customer.

No customer shall discharge or cause to be discharged into the Company's system any storm water, surface water, ground water, roof runoff, sub-surface drainage, foundation or basement sump drainage, uncontaminated cooling water or unpolluted industrial process water.

No customer shall discharge or cause to be discharged into the Company's system the following described substances, materials, waters, or wastes without the prior written approval of the Company. Such wastes can harm either the sewerage system or treatment process and/or equipment, have an adverse effect upon the receiving stream for the treated sewage, or can otherwise endanger life, limb or property or create a nuisance. In forming the opinions as to whether or not to permit the discharge, the Company will consider the effect upon receiving sewers, as well as the conditions placed upon the Company by its service agreements with sewage treatment service providers including, but not limited to, the Logan Township Municipal Utilities Authority (LTMUA).

The customer shall be responsible for maintaining and repairing the "building drain" and "building sewer".

6. Limitations on Wastewater Discharges:

The Company reserves the right upon review to:

- a. Reject the wastes.
- b. Require pretreatment to an acceptable condition for discharge.
- c. Require flow equalization.

Hamilton, NJ 08691

Filed pursuant to decision and Order of Board of Public Utilities dated February 19, 2014, in Docket No. WR13070686.

In the event pretreatment facilities or flow equalization is required, the design and construction of such facilities shall be subject to approval of the Company and operation of said facilities shall be subject to inspection by the Company. Monitoring and/or sampling equipment shall be installed and operated by the customer as deemed necessary by the Company to ascertain proper operation of the pretreatment facilities.

The wastes requiring written approval are:

- a. Any liquid or vapor having a temperature in excess of 150°F.
- b. Any waters or waste waters containing phenols.
- c. Any waters or wastes having a pH in excess of 9.5.
- d. Any water containing unusual concentrations of inert suspended solids, such as, but not limited to, diatomaceous earth, lime and lime slurries or of dissolved solids such as but not limited to sodium chloride or sodium sulfate.
- e. Any water or waste water containing excessive discoloration.
- f. Waste water having unusual "B.O.D." concentration, suspended solids concentration or high chlorine demand in such quantities as to constitute a significant load on the treatment plant.
- g. Unusual volume of flow or concentrations of wastes constituting "slugs" as hereinbefore defined.
- h. Water or wastes containing substances not amenable to biological treatment processes as provided by the Company's wastewater treatment service providers, including, but not limited to, LTMUA and OCMUA.

No customers shall discharge or cause to be discharged any of the following described waters or wastes to the sewers:

1. Any gasoline, benzene, naptha, paints, lacquers, fuel oil or other flammable or explosive liquid, solid or gas which by reason of its nature or quality may cause fire or explosion or which, in any way, may be injurious to personnel or the sewer system.
2. Any water or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity either singly or by interaction with other wastes to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant.
3. Any waters or wastes having a pH of lower than 5.5 or having any other corrosive property capable of causing damage or hazard to the sewerage system and/or personnel of the Company.
4. Plating mill waste water or other industrial process water containing spent pickle liquor concentrated plating solutions, chromium, zinc and similar toxic heavy metals, cyanides and cleaning solvents.
5. Any radioactive material.
6. Any water or wastes containing fats, wax, grease, tar, oils or any other substances, whether emulsified or not which may solidify or become viscous at temperatures between 32° and 150°F or which would impair, impede, affect, interfere with, or endanger personnel or the sewer system.
7. Any garbage not properly shredded.
8. Any solids of such size or characteristic capable of causing obstruction to the flow in sewers, such as, but not limited to, ashes, cinders, sand, mud, straw, metal
