Dear Ms. Asbury,

My wife and I support the BPU's Provisional Rates Proposed Rates Rule docket #AX17050468. To have good safe and reliable utilities the companies have to be able to finance the construction. We need safe and reliable utilities! Please pass BPU Docket #AX17050468.

Thank You,

Ronald Pitko

Dear Ms. Asbury,

My wife and I support the BPU in establishing a new infrastructure Investment Program for utilities. It's very important to have safe and reliable utilities. As you can see from the disasters in Florida and Texas how important utilities are. I don't want to buy a generator because they are dangerous and need constant maintenance. We need safe and reliable utilities! Please pass BPU Docket #AX17050469.

Thank You,

Ronald Pitko
