

Re: NJ American Water Company Inc. Notice of Filing of a Petition for Approval of a Distribution System Improvement Charge, DSIC

The public should pay for the company's expenses through a surcharge.

I don't believe the state should be giving the water company the ok to "soak" the public again.

When the company became the new owners of Elizabeth Water Co. they applied for and received approval for a monthly billing instead of the quarterly billing, and after receiving approval, in a very short time the public was paying the amount in one month that they had been paying in three months.

I urge you to deny this petition and give the already over burdened public a break...

Sincerely,

A paying customer,

James F.
