September 17, 2018

In the Matter of the Provision of Basic Generation Service
for the Period Beginning June 1, 2019

Docket No. ER18040356

Aida Camacho-Welch, Secretary
New Jersey Board of Public Utilities
44 South Clinton Avenue, 3rd Floor, Suite 314
Trenton, New Jersey 08625-0350

RECEIVED
MAIL ROOM

SEP 18 2018

BOARD OF PUBLIC UTILITIES
TRENTON, NJ

Dear Secretary Camacho-Welch:

Attached and filed herewith are affidavits as proof of publication of the Notice of Filing and Public Hearings in the above-referenced matter. This notice appeared in the following newspapers on August 22, 2018.

Burlington Times
Courier Post
Herald News
The Jersey Journal
New Jersey Herald

The Record
South Jersey Times
Star-Ledger
The Times of Trenton
The Trentonian

I also represent to you that the municipal clerks and county executives who are within the Company's electric service territory received copies of this notice by first class mail on August 22, 2018.

Very truly yours,

BGS PUBLIC NOTICE

NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC CUSTOMERS

NOTICE OF FILING AND PUBLIC HEARINGS FOR BASIC GENERATION SERVICE (BGS) CHARGES PROCURED BY PSE&G ON BEHALF OF ITS BASIC GENERATION SERVICE CUSTOMERS AND

NOTICE OF PROPOSED RECOVERY THROUGH ITS BGS CHARGES OF COSTS RESULTING FROM STATEWIDE AUCTION FOR BASIC GENERATION SERVICE

TAKE NOTICE that, on June 29, 2018, Public Service Electric and Gas Company (Public Service, PSE&G, the Company) filed a proposal (Annual Proposal for Basic Generation Service (BGS) Requirements to be Procured Effective June 1, 2019) with the New Jersey Board of Public Utilities (Board, BPU) requesting that the Board approve the procurement of BGS through a statewide competitive auction process with new BGS charges to become effective June 1, 2019. BGS is the electric generation supply provided to all PSE&G customers who do not purchase their electricity from a third party supplier.

The New Jersey Electric Distribution Companies (EDCs), including PSE&G, are mandated to provide BGS in accordance with the requirements of the Electric Discount and Energy Competition Act (the Act). BGS is currently procured through a statewide competitive auction process in which all of the EDCs seek offers for BGS supply from electric generation suppliers. In this auction process, electric generation suppliers bid in a descending-clock auction on specified portions of the electric requirements for BGS customers for each of the EDCs. The Board has approved this type of auction for each year since 2001, and has found that this auction process meets the statutory requirements of the Act. The Company's Annual Proposal for BGS Requirements to be Procured Effective June 1, 2019 is available at: <http://www.bgs-auction.com/bgs.auction.regproc.asp>.

On September 28, 2018 beginning at 10:00 AM, a hearing will be held at the Board's 44 South Clinton Ave. Trenton, New Jersey office regarding the BGS proposals. The Board is expected to rule on the EDCs' BGS proposal shortly thereafter. The Board's Agenda Meeting schedules can be found at www.bpu.state.nj.us.

The final price for Basic Generation Service – Residential Small Commercial Pricing (BGS-RSCP) supply resulting from the BGS-RSCP auction conducted in 2018 was \$0.09177 per kilowatt-hour for a 36-month supply period. For the Basic Generation Service – Commercial and Industrial Energy Pricing (BGS-CIEP) auction conducted in 2018, the Generation Capacity Charge cleared at \$287.76 per MW-day.

The final auction clearing prices for the BGS supply procured in the 2019 BGS-RSCP and BGS-CIEP auctions may be higher than or lower than the prices obtained in the 2018 auctions. Auction prices are converted to customer charges, which may be higher than or lower than current charges, depending on the outcome of the auction, consistent with market conditions. BGS rates also include applicable transmission charges set by the FERC. BGS-RSCP and BGS-CIEP rates may change to reflect any increases or decreases in these FERC-approved transmission charges.

Under the EDCs' June 29, 2018 proposal, the criteria for BGS-CIEP eligibility would be set at a peak load share of 500 kW. Customer classes eligible to be served under the BGS-RSCP rate would include customers served under PSE&G's distribution Rate Schedules RS, RHS, RLM, WH, WHS, HS, BPL, BPL-POF, PSAL, GLP and LPL-Secondary with a peak load share of less than 500 kW. Customers served on Rate Schedules HS, GLP and LPL-Secondary may elect to be served at BGS-CIEP as their default supply option. Additionally, PSE&G customers served under distribution Rate Schedules LPL-Primary, HTS-Subtransmission, HTS-Transmission, HTS-High Voltage, and those LPL-Secondary customers with a peak load share of 500 kW or greater are only eligible to be served under BGS-CIEP. These criteria for BGS-CIEP service are subject to change for this year's procurement at the discretion of the Board.

PLEASE TAKE NOTICE that the Board has scheduled the following date, time and location for a public hearing on the above filing so that members of the public may present their views. The hearing will continue until all public witnesses are heard. Information provided at the public hearings will become part of the record of this case and will be considered by the Board in making its decision.
