Re: New Jersey-American Water Company, Inc.
Distribution System Improvement Charge ("DSIC") Foundational Filing
Substitution Project List 2019Q1 March
BPU Docket No. WR17111183

Dear Secretary Camacho-Welch:

On October 29, 2018, the New Jersey Board of Public Utilities ("BPU") adopted the stipulation of settlement (the "Stipulation") entered into between New Jersey-American Water Company, Inc. ("New Jersey-American Water"), the Division of Rate Counsel ("Rate Counsel") and BPU Staff in the above-referenced matter (the "2017 DSIC Foundational Filing").

Pursuant to *N.J.A.C. 14:9-10.4(b)5* and *14:9-10.5(b)*, New Jersey-American Water respectfully requests the substitution of six DSIC-eligible projects that the BPU approved in connection with the 2017 Foundational Filing. Five of the six projects are scheduled to be in service and complete by October 2019, and one by March 2020. New Jersey-American Water identified all six projects as DSIC-eligible (under *N.J.A.C. 14:9-10.3(a)1*) after the BPU's approval of the Stipulation. Exhibit A, attached hereto lists the six substitution projects and corresponding projects to be "substituted out."

New Jersey-American Water must complete these projects because local operating conditions warrant more expedited action, or because other work being done in the immediate area make completing the project now a more prudent and cost effective decision. A more detailed description of each project is set forth in Exhibit A. New Jersey-American Water endeavors to identify and prioritize all of its projects in advance, but conditions change and New Jersey-American Water must be flexible and react accordingly.
