**NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC CUSTOMERS
IN THE MATTER OF THE PETITION OF PUBLIC SERVICE ELECTRIC AND GAS COMPANY FOR APPROVAL OF ELECTRIC BASE RATE
ADJUSTMENTS PURSUANT TO THE MADISON 4KV SUBSTATION PROJECT (M&M 2019 RATE FILING)**

Notice of a Filing and Notice of Public Hearings | Docket No. ER19040530

TAKE NOTICE that, on April 30, 2019 Public Service Electric and Gas Company (Public Service, PSE&G, the Company) filed a Petition and supporting documentation with the New Jersey Board of Public Utilities (Board, BPU) seeking Board approval for electric base rate changes to provide for cost recovery associated with the Company's Madison & Marshall (M&M) Substations.

The filing reflects PSE&G's recovery of and on the capital investments associated with the M&M substations that were incurred from October 1, 2014 through June 30, 2019. The substations were initially part of the Energy Strong Program (ES) approved by the Board Docket Nos. EO1302D155 & GO1302D156 on May 21, 2014. However, due to a scope change related to the raise and rebuild of the M&M Substations, the investments were to be recovered outside of ES. This filing is being made pursuant an Agreement Regarding Withdrawal of Objection (Agreement), dated November 30, 2016. The agreement allowed the Company to reflect reasonable and prudent costs associated with the M&M substations to be reflected in base rates so long as it went into service more than six (6) months but less than one year after the test year in the Company's 2018 Base Rate Case.

Under the Company's proposal, PSE&G seeks Board approval to recover in base rates an estimated annual revenue increase associated with the capitalized investment costs of the M&M substations incurred through June 30, 2019 of approximately \$7.4 million from the Company's electric customers.

For illustrative purposes the estimated Base Rates effective October 1, 2019 including New Jersey Sales and Use Tax (SUT) for residential Rate Schedule RS are shown in Table #1.

Table #2 provides customers with the approximate impact of the proposed increase in rates relating to the M&M substations, if approved by the Board. The annual percentage increase applicable to specific customers will vary according to the applicable rate schedule and the level of the customer's usage.

Under the Company's proposal, a typical residential electric customer using 740 kilowatt-hours per summer month and 6,920 kilowatt-hours on an annual basis would see an increase in the annual bill from \$1,262.72 to \$1,265.96, or \$3.24 or approximately 0.26%. The approximate effect of the proposed increase on typical electric residential monthly bills, if approved by the Board, is illustrated in Table #3.

Any rate adjustments with resulting changes in bill impacts found by the Board to be just and reasonable as the result of the Company's filing may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A 48:2-21 and for other good and legally sufficient reasons to any class or classes of customers of the Company. Therefore, the described charges may increase or decrease based upon the Board's decision.

Copies of the Company's filing are available for review at the Company's Customer Service Centers (addresses located here: <https://nj.pseg.com/customerservice/locations>), online at the PSEG website at <http://www.pseg.com/pseandgfilings>, and at the Board of Public Utilities at 44 South Clinton Avenue, 2nd Floor, Trenton, New Jersey 08625-0350. Any member of the public who wants to inspect the petition at the Board may contact the Board's Division of Case Management at (609) 292-0806 to schedule an appointment.

The following dates, times and locations for public hearings have been scheduled on the Company's filing so that members of the public may present their views. Information provided at the public hearings will become part of the record of this case and will be considered by the Board in making its decision.
