Re: New Jersey-American Water Company, Inc.
Distribution System Improvement Charge ("DSIC") Foundational Filing
Substitution Project List 2019 Q4 December
BPU Docket No. WR17111183

Dear Secretary Camacho-Welch:

On October 29, 2018, the New Jersey Board of Public Utilities ("BPU") adopted the stipulation of settlement (the "Stipulation") entered into between New Jersey-American Water Company, Inc. ("New Jersey-American Water"), the Division of Rate Counsel ("Rate Counsel") and BPU Staff in the above-referenced matter (the "2017 DSIC Foundational Filing").

Pursuant to *N.J.A.C.* 14:9-10.4(b)5 and 14:9-10.5(b), New Jersey-American Water respectfully requests the substitution of sixteen (16) DSIC-eligible projects that the BPU approved in connection with the 2017 Foundational Filing. Most projects are scheduled to be in service and complete by Spring 2020. New Jersey-American Water identified all sixteen projects as DSIC-eligible (under *N.J.A.C.* 14:9-10.3(a)1) after the BPU's approval of the Stipulation. Exhibit A, attached hereto, lists the substitution projects and corresponding projects "substituted out."

New Jersey-American Water must complete these projects because local operating conditions warrant more expedited action, or because other work being done in the immediate area make completing the project now a more prudent and cost effective decision. A more detailed description of each project is set forth in Exhibit A. New Jersey-American Water endeavors to identify and prioritize all of its projects in advance, but conditions change and New Jersey-American Water must be flexible and react accordingly.
