Dear Board Secretary Camacho

On behalf of the Commerce and Industry Association of New Jersey (CIANJ), we want to express our support for JCP&L's rate plan which was submitted in February of year. CIANJ is a business group representing the interests of more than 900 companies from virtually every business sector. Keeping our power infrastructure up to date and resilient is critical to our economic recovery and viability. JCP&L is a good corporate citizen and has also been responsive to the needs of our members.

They have demonstrated their commitment to building a stronger and more resilient power supply by the investments already made and how they have responded to recent storms. We hope the NJBPU approves the rate plan. Thank you for the opportunity to provide input and please call with any questions.
