

PSEG Nuclear, LLC
ZEC 2 – Salem II
Docket No: ER20080558

Response to Discovery Request: SII-ZECJ-FIN-0007
Date: 10/1/2020

Question:

Provide certified cost projections over the next five (5) energy years, including all inputs and adjustments. Cost projections should include but may not be limited to: operation and maintenance expenses; investments; fuel expenses; spent fuel expenditures; non-fuel capital expenditures; long-term fuel storage costs; other capital costs, including uranium fuel pricing for the Unit; all other expenses, including, but not limited to, fully allocated overhead costs; and the projected costs of operational and market risks. Provide supporting documentation.

Attachments Provided Herewith: YES - CONFIDENTIAL

Response:

Certified cost projections over the next five (5) energy years are provided in the confidential attachment.
