

PSEG Nuclear, LLC
ZEC 2 – Salem II
Docket No: ER20080558

Response to Discovery Request: SII-ZECJ-FIN-0011
Date: 10/1/2020

Question:

Provide the annual average Unit bid price in the annual Base Residual Auction (“BRA”) over the past ten (10) years (\$/MW), including all capacity auction bids by year, as well as any cost data submitted to PJM and the PJM Independent Market Monitor as part of a unit-specific review process.

Attachments Provided Herewith: YES - CONFIDENTIAL

Response:

The attached spreadsheet provides the average unit-level bid prices used in PJM’s annual Base Residual Auction (“BRA”) for capacity over the past ten (10) years in \$/MW-day, including all capacity auction bids by year.

The attached spreadsheets provide unit specific ACR information that was prepared and submitted to the IMM for the 2022/2023 BRA. The submittals were withdrawn after the award of ZECs to the resources, and were never evaluated by the IMM. No other ACR information was submitted to the PJM or IMM in the past ten (10) years.

Also attached is a confidential supplement describing bidding practices.
