**Re: In the Matter of the Application of PSEG Nuclear, LLC and Exelon Generation Company, LLC for the Zero Emission Certificate Program—Salem 1, Salem 2, and Hope Creek Units, BPU Docket Nos. ER20080557, ER20080558, ER20080559**

**Rate Counsel's Request for Pre-Hearing Conference**

Dear President Fiordaliso:

On December 7, 2020, the New Jersey Division of Rate Counsel ("Rate Counsel") filed a request for a pre-hearing conference in the above-docketed matters to provide further clarity on procedural issues, including the dates of the evidentiary hearings as well as specific filing requirements prior to the hearings and in response to Board Staff's preliminary findings. Please accept for filing this letter on behalf of PSEG Nuclear, LLC ("PSEG") in response to Rate Counsel's request.

PSEG feels that a pre-hearing conference would be beneficial and appropriate to help the parties understand the Board's expectations for the evidentiary hearings. Specifically, PSEG respectfully requests that the Board's expectations regarding the following topics be discussed during this pre-hearing conference: (1) schedule and time allotted for the public and evidentiary

hearings; (2) filing requirements, such as witness lists, direct testimony and comments that would be required to be filed prior to and after the evidentiary hearings; (3) format of the evidentiary hearings, including opening and closing statements, and cross-examination of witnesses; and (4) manner in which confidential information will be handled during the hearings. We refer to Exelon Generation's explanation of the benefits of a discussion regarding the different categories of confidential information that exist in these dockets as described in their December 14, 2020 submission.

Sincerely,

A handwritten signature in black ink that reads "Grace H. Park" followed by a long horizontal flourish.
