

Exhibit D: Annual BGSS Minimum Filing Requirements

1. Motion, Supporting Testimony & Tariff Modifications

In support of its filing, a GDC should provide supporting testimony which addresses any material events or major factors affecting either the prior period's deferred gas balance or its forecasted BGSS rate. In addition to the associated motion, redlined tariff sheets should be provided for all proposed tariff changes.

2. Computation of Proposed BGSS Rates

A summary schedule should show all of the forecasted BGSS cost components and applicable credits which comprise the basis for the proposed BGSS rates that are to become effective October 1. The cost components and applicable credits should be provided with all material amounts broken out separately. A plain English explanation in narrative form regarding this summary schedule should be provided.

3. Public Notice with Proposed Impact on Bills

A copy of the Company's Public Notice should be provided with details concerning the impact of the proposed BGSS rates on typical gas bills at various winter therm utilization levels.

4. Actual and Forecasted Refund Amounts

Schedules should be provided which show actual and estimated supplier refund amounts for the reconciliation period as well as the estimated supplier refunds for the projected period beginning October 1. The schedule should identify the supplier refunds by month and should provide associated information on the applicable FERC docket involved. A plain English explanation in narrative form regarding these schedules should be provided.

5. Cost of Gas Sendout by Component

Monthly data showing the derivation of all cost components shown on the BGSS Computation Schedule should be provided for the reconciliation and projected periods. The monthly data should also provide detail on applicable volumes by customer classification.

6. BGSS Contribution and Credit Offsets

Monthly data showing the derivation of all BGSS cost offsets, including interruptible margins, capacity transactions, pipeline refunds and other credits should be provided for the reconciliation and projected periods. Any applicable FERC Orders will be included. Please include all calculations showing how such offsets were determined. A plain English explanation in narrative form should be provided regarding the above categories.

7. Over/Under Recovery Comparisons

Schedules should be provided which show the derivation of the monthly over or under recoveries plus cumulative balances for the reconciliation and projected period. For the reconciliation period, a schedule should also show the calculation of the monthly actual or estimated accrued interest. These schedules should include prospective data shown for the projected period based on the prevailing BGSS rate and, alternatively, based on the requested BGSS rate.

8. Wholesale Gas Pricing Assumptions

The GDC should provide schedules which detail the monthly gas prices for the reconciliation and projected periods. The schedules should show the prices utilized in developing the existing BGSS rate and those utilized for projecting the proposed BGSS rate. To the degree third party price indexes or forecasts are the basis for such gas prices, associated documentation should also be provided. A plain English explanation in narrative form regarding these schedules should be provided.

9. GCUA Recoveries and Balances

Schedules should be provided that show monthly data for the GCUA since its inception. The data should provide the unamortized balances, recoveries, and accrued interest by month with any associated workpapers.

10. Historical Service Interruptions

A schedule should be provided which details any service interruptions during the past 12 months. The schedule should show the dates of the interruptions, the service categories

affected, the number of customers affected and whether each interruption was operational or economic in nature.

11. Gas Price Hedging Activities

The GDC should provide copies of its last four quarterly hedging reports as filed with the Board. It should also provide a schedule covering both the reconciliation and projected period which shows monthly gas purchase volume requirements and price hedged volumes broken down into discretionary and non-discretionary components which allow evaluation of compliance with the GDC's established hedging objectives. A plain English explanation in narrative form regarding these hedging activities should be provided.

12. Storage Gas Volumes, Prices and Utilization

Schedules should be provided which show the GDC's monthly data for LNG, LPG, and pipeline storage volumes. The schedules should show volumes and dollars for balances, injections, and withdrawals with all data shown on a Dth basis.

13. Affiliate Gas Supply Transactions

The GDC's filing should have disclosure of all gas supply and capacity transactions with any affiliates during the reconciliation or forecasted periods. The disclosure should provide the nature, terms, and conditions of any such transactions, the date of the transactions, and evidence that the gas supply or capacity resources transactions were at market rates. PSE&G's filing shall also include a description of the principal terms of the Requirements Contract between PSE&G and PSEG Energy Resources and Trade.

14. Supply and Demand Data

Schedules should be provided that show the GDC's firm requirements and gas supplies by component on an annual, heating season and non-heating season basis. The data should be provided for the reconciliation period and the two prior and two prospective annual periods.

15. Actual Peak Day Supply and Demand

The GDC should provide data for the five highest demand days, for each of the last three years, showing date, temperature or HDD, firm and interruptible volumes and the sources of supply used to meet the associated volume requirement.

16. Capacity Contract Changes

The GDC filing should provide details concerning any changes to its interstate pipeline contracts (entitlements, storage capacities, daily deliverability, transportation, or associated costs) which have been made or occurred during the past 24 months or are planned for the next 12 months. To the degree any significant changes have been made or are planned, a narrative should discuss operational and cost consequences as well as the rationale for the changes.

17. FERC Pipeline Activities

The GDC's filing should provide details on any pending FERC dockets which would affect the cost or services received from the GDC's supplying pipelines. The GDC should also provide details concerning its participation in such dockets and a listing of any filings or testimony made by the GDC or on its behalf.

18. Gas Supply Plan

PSE&G will prepare and include a Gas Supply Plan with details concerning the Company's objectives, approach, and plans for supplying gas to its residential customers. The Gas Supply Plan will include the following elements:

- *Gas Procurement Objectives* – The Company will provide a general outlook of pricing, supply, availability, pipeline activity in areas that affect deliveries to the PSE&G city gate and the reliability of supply from the major producing areas available to the Company for the upcoming period.
- *Current and forecasted gas service requirements* – The Company will identify its forecasted supply requirements, including information on the Company's current forecasting method utilized in determining its current and future load requirements (i.e. Company's Natural Gas Sales Forecast report). Sources used to develop these forecasts should be cited and available upon request.

- *Projected sources of capacity* – The Company will provide details regarding any changes in pipeline capacity, including entering into new capacity contracts or the termination of any existing pipeline or storage capacity contracts as well as applicable pricing information subject to execution of an appropriate confidentiality agreement if determined necessary by the Company.
- *Affiliate Relationships/Asset Management* – The Company will include detailed information concerning interactions and arrangements between Company and affiliates in its supply, transportation, and storage of gas as well as procurement and management of Company assets. The Company will provide details on how the arm-length relationship is maintained.
- *Hedging Plan and Strategy* – The Company will provide details of its prior and current hedged gas positions and a discussion of the results of its hedged gas positions for the prior and forecasted future periods. In addition, the Company will identify how it utilized storage and flowing gas in its plan and any other relevant factors that influenced the Company's purchase plan.
- *Capacity Releases/Off-System Sales* – The Company will provide a summary of prior-period capacity release and off-system sales and an estimate of these activities for the future period. The Company will include its assessment of the value of its capacity and sales potential, as well as an assessment of market conditions for the prior period.

The filing shall also include a listing of all existing pipeline and storage capacity contracts for which the Company has given notice to extend or terminate during the previous 12 months, and all contracts that were extended under evergreen provisions during the same period.
