Re: In the Matter of the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic, Docket No. A020060471

Dear Secretary Camacho-Welch,

On July 2, 2020, the New Jersey Board of Public Utilities (“BPU” or “Board”) issued an Order, requiring that each utility that establishes a COVID-19 regulatory asset account file quarterly reports with the Board of the COVID-19-related costs incurred and offsets together with a verification by an authorized representative. The Order also required that the first quarterly report be filed on August 1, 2020 for the period ending June 30, 2020.

The information in the attached report reflects those COVID-19-related costs that were immediately identifiable and should not be considered an exhaustive list of categories or items that the Company will include in the deferral for this period or a future period. As this event is continuing, the Company is working diligently to assess the financial and operational impacts to improve identification and quantification of appropriate impacts for future deferral and reporting.

In accordance with the July 2, 2020 Order, Jersey Central Power & Light Company (“JCP&L” or the “Board”) is filing its first quarterly report of the COVID-19-related costs incurred and offsets for the period ending June 30, 2020, along with a verification.

Please contact me if you have any further questions.

Very truly yours,

Lauren M. Lepkoski
