P.L. 2018, C.17 – Docket No. QO20020184**

The Board is completing a comprehensive revision of New Jersey’s solar energy incentive programs in accordance with the Clean Energy Act. The upcoming establishment of the New Jersey Solar Successor Program (Successor Program) is the culmination of more than two years of stakeholder engagement and program development to transition from New Jersey’s legacy SREC program to the creation of a long-term, durable solar incentive program.

On April 7, 2021, the Board [issued a Notice](#) releasing Staff’s ***New Jersey Solar Successor Program Straw Proposal***, which details preliminary recommendations for the Successor Program and launches the last set of stakeholder sessions in this solar transition to be held between late April and early May. To complement these workshops, stakeholders are also invited to speak directly with the Board Commissioners at this Public Meeting.

In the interest of public health and safety, this meeting will be conducted virtually at the following date, time, and location:

This is the second of NJBPU's Quarterly Public Comment Meetings that are offered in order to provide members of the public and interested parties an opportunity to speak directly to Board Commissioners on matters that are relevant to the Board's jurisdiction. **The Board will reserve 20 to 30 minutes at the end of this session for the public to raise issues other than those related to the Board's solar program. Speakers will be asked to avoid comment on contested matters that are before the Board other than the specifically noticed matter, but are welcome to raise general policy issues for the Board's consideration.**

The April 30 Quarterly Public Comment Meeting will be chaired by NJBPU President Joseph L. Fiordaliso. Stakeholders are invited to provide legislative-style testimony on the meeting topic, New Jersey's solar transition. Parties who wish to speak at the meeting must register by **\*5:00 p.m. ET on Wednesday, April 28, 2021\*** via the following link:
