NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC CUSTOMERS

In The Matter of the Petition of Public Service Electric and Gas Company for Approval of Electric Infrastructure Investment Recovery Charges Pursuant to the Second Energy Strong Program (Energy Strong II) Notice of Filing and Notice of Public Hearings

Docket No. ER20120736

PLEASE TAKE NOTICE that, on December 1, 2020, Public Service Electric and Gas Company ("Public Service", "PSE&G", or "Company") filed a petition and supporting documentation with the New Jersey Board of Public Utilities ("Board" or "BPU") seeking Board approval for cost recovery associated with the extension of the Company's Energy Strong Program ("ES II" or "Program").

On September 11, 2019, the Board issued an Order approving ES II in Docket Nos. EO18060629 and GO18060630 ("Order"). The Order provided approval to invest up to \$842 million, with \$691.5 million recovered through the Energy Strong II Rate Mechanism and \$150.5 million within Stipulated Base to harden its electric and gas infrastructure to make it less susceptible to damage from wind, flying debris and water damage in anticipation of future major storm events and to strengthen the resiliency of PSE&G's delivery system. It was anticipated that these investments would be made over a four (4)-year period beginning on the effective date of the Board's Order, with certain investments anticipated to be made over a five (5)-year period.

Under the Company's proposal, PSE&G seeks Board approval to recover an estimated annual revenue increase of approximately \$12.7 million from the Company's electric customers through the Energy Strong II Rate Mechanism associated with approximately \$105.9 million of capitalized actual ES II investment costs incurred through January 31, 2021.

For illustrative purposes, the estimated base rates effective May 1, 2021, including New Jersey Sales and Use Tax ("SUT") for Residential Rate Schedule RS, are shown in Table #1.

Table #2 provides customers with the approximate impact of the proposed increase in rates relating to ES II, if approved by the Board. The annual percentage increase applicable to specific customers will vary according to the applicable rate schedule and the level of the customer's usage.

Under the Company's proposal, a residential electric customer using 740 kilowatt-hours per month during the summer months, and 6,920 kilowatt-hours on an annual basis, would see an increase in the annual bill from \$1,280.40 to \$1,285.92, or \$5.52, or approximately 0.43%. The approximate effect of the proposed increase on typical electric residential

monthly bills, if approved by the Board, is illustrated in Table #3 below.

Any rate adjustments with resulting changes in bill impacts found by the Board to be just and reasonable as the result of the Company's filing may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:2-21 and for other good and legally sufficient reasons to any class or classes of customers of the Company. Therefore, the described charges may increase or decrease based upon the Board's decision.

The Company's filing is available for review online at the PSEG website at <http://www.pseg.com/pseandgfilings>.

Due to the COVID-19 pandemic, telephonic public hearings have been scheduled on the following date and times so that members of the public may present their views on the Company's filing.

For illustrative purposes, the estimated base rates effective May 1, 2021, including New Jersey Sales and Use Tax ("SUT") for Residential Rate Schedule RS, are shown in Table #1.

Table #2 provides customers with the approximate impact of the proposed increase in rates relating to ES II, if approved by the Board. The annual percentage increase applicable to specific customers will vary according to the applicable rate schedule and the level of the customer's usage.

Under the Company's proposal, a residential electric customer using 740 kilowatt-hours per month during the summer months, and 6,920 kilowatt-hours on an annual basis, would see an increase in the annual bill from \$1,280.40 to \$1,285.92, or \$5.52, or approximately 0.43%. The approximate effect of the proposed increase on typical electric residential monthly bills, if approved by the Board, is illustrated in Table #3 below.

Any rate adjustments with resulting changes in bill impacts found by the Board to be just and reasonable as the result of the Company's filing may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:2-21 and for

other good and legally sufficient reasons to any class or classes of customers of the Company. Therefore, the described charges may increase or decrease based upon the Board's decision.

The Company's filing is available for review online at the PSEG website at <http://www.pseg.com/pseandgfilings>.

**NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC CUSTOMERS
IN THE MATTER OF THE PETITION OF PUBLIC SERVICE ELECTRIC AND GAS COMPANY FOR APPROVAL OF ELECTRIC
INFRASTRUCTURE INVESTMENT RECOVERY CHARGES
PURSUANT TO THE SECOND ENERGY STRONG PROGRAM (ENERGY STRONG II)
Notice of Filing and Notice of Public Hearings | Docket No. ER20120736**

PLEASE TAKE NOTICE that, on December 1, 2020, Public Service Electric and Gas Company ("Public Service," "PSE&G," or "Company") filed a petition and supporting documentation with the New Jersey Board of Public Utilities ("Board" or "BPU") seeking Board approval for cost recovery associated with the extension of the Company's Energy Strong Program ("ES II" or "Program").

On September 11, 2019, the Board issued an Order approving ES II in Docket Nos. EO18060629 and GO18060630 ("Order"). The Order provided approval to invest up to \$842 million, with \$691.5 million recovered through the Energy Strong II Rate Mechanism and \$150.5 million within Stipulated Base to harden its electric and gas infrastructure to make it less susceptible to damage from wind, flying debris and water damage in anticipation of future major storm events and to strengthen the resiliency of PSE&G's delivery system. It was anticipated that these investments would be made over a four (4)-year period beginning on the effective date of the Board's Order, with certain investments anticipated to be made over a five (5)-year period.

Under the Company's proposal, PSE&G seeks Board approval to recover an estimated annual revenue increase of approximately \$12.7 million from the Company's electric customers through the Energy Strong II Rate Mechanism associated with approximately \$105.9 million of capitalized actual ES II investment costs incurred through January 31, 2021.

For illustrative purposes, the estimated base rates effective May 1, 2021, including New Jersey Sales and Use Tax ("SUT") for Residential Rate Schedule RS, are shown in Table #1.

Table #2 provides customers with the approximate impact of the proposed increase in rates relating to ES II, if approved by the Board. The annual percentage increase applicable to specific customers will vary according to the applicable rate schedule and the level of the customer's usage.

Under the Company's proposal, a residential electric customer using 740 kilowatt-hours per month during the summer months, and 6,920 kilowatt-hours on an annual basis, would see an increase in the annual bill from \$1,280.40 to \$1,285.92, or \$5.52, or approximately 0.43%. The approximate effect of the proposed increase on typical electric residential monthly bills, if approved by the Board, is illustrated in Table #3 below.

Any rate adjustments with resulting changes in bill impacts found by the Board to be just and reasonable as the result of the Company's filing may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A. 48:2-21 and for other good and legally sufficient

reasons to any class or classes of customers of the Company. Therefore, the described charges may increase or decrease based upon the Board's decision.
