

Dear New Jersey Board of Public Utilities,

I urge you to end the nuke tax and reject PSEG's petitions (Docket Nos. ER 20080557, ER 20080558, ER 20080559) to increase every consumer's electric rates to pay for additional millions of dollars in zero emission credits to increase the profits of the company's nuclear plants.

These nuclear plants are profitable and PSEG is a very profitable company. Many New Jerseyans and small businesses are struggling just to get by and keep the lights on. Especially now, in the face of the COVID-19 pandemic, the last thing we need is another unnecessary nuke tax taking more money from our pockets just to increase the profits of profitable energy companies.

Say no to another nuclear tax.

Sincerely,

(see attached list of petition signers)
