5. PSE&G requests that the Board maintain the confidentiality of the Competitive Information for an indefinite period of time. The release of PSE&G's Competitive Information from the past years may enable PSE&G's competitors to make an educated guess at PSE&G's current bidding process. For this reason, the confidentiality of the Competitive Information should be maintained for an indefinite period of time.

6. Therefore, the Board should grant PSE&G's request for confidential treatment of a portion of the report, redacting the specific project cost information. A proposed form of a redacted report is being filed with this affidavit.

7. I swear that the foregoing statements are true to the best of my knowledge.

8. PSE&G submits the following as the addressee for communications from the custodian for this information under *N.J.A.C. 14:2-12.1. et. Seq.* The Company hereby requests that all custodian communications (oral and written), including, without limitation, the notices listed in *N.J.A.C. 14:1-12.7* and *12.9* be directed to the following designee:

Notes:

- "SREC's Sold" and "SREC Revenue" includes vintage year 2011 through 2021 SRECs
- Monthly "Pole-attached Units Installed" & "Pole-attached MW Installed" are preliminary estimates and subject to change. Adjustments to prior months will be reflected in YTD values. Capacity specified in certain previously filed capacity reports represented gross installed capacity. The values shown in the table above account for net installed capacity (total installs minus total removals).
- "Pole Attached Units Communicating" represents the *average, daily* number of panels that communicated during the month.
- The columns "Energy Produced" and "SRECs Sold" do not sync because of the timing of SREC auctions, through which SRECs are sold.
- Business interruption insurance recovery received for lost energy sales and SREC sales due to Superstorm Sandy

PSE&G Pole-Attached Solar: Quarterly Performance vs. PV Watts @ 80% of 0.77

Total S4A Fleet Performance:

May weather conditions were not favorable for solar production. Actual monthly production compared to plan is 9.02%

Seg2 (Pole Attached Solar):

- Development of communications network continues.
- Ongoing maintenance of existing installations continues.
