Re: **In the Matter of the Petition of South Jersey Gas Company for Approval To Continue Its Energy-Efficiency Programs (“EEP IV”) and Energy Efficiency Tracker Pursuant to N.J.S.A. 48:3-98.1
BPU Docket No. GO18030350**

Dear Secretary Camacho-Welch and Ms. Brand:

Pursuant to the New Jersey Board of Public Utilities ("Board") Order approving a Stipulation of Settlement ("Stipulation") in the above-captioned matter, South Jersey Gas Company ("SJG" or the "Company") respectfully notifies the Board and the Division of Rate Counsel ("Rate Counsel") of a re-alignment of funds between various sub-programs pursuant to Paragraph 21 of the Stipulation.¹

On October 11, 2018, the Board approved the Company's EEP IV Program beginning November 1, 2018 through December 31, 2021. This approval authorized a total budget of \$81.3 million (\$72.1 million of investment and \$9.2 million of administration) for the term of the EEP IV program.

¹The Stipulation requires the Company to notify the Parties, i.e. the Board and Rate Counsel, of any transfers of EE program funds between approved sub-program components

As a result of a greater than anticipated participation rate in its NJCEP Residential Programs sub-program by participants in the Company's service territory, the Company is re-aligning \$1.76 million to the NJCEP Residential Programs sub-program from the following three (3) sub-programs:

1. \$360,000 million from the Residential Direct Install Program;
2. \$600,000 million from the C&I Engineered Solutions Program;
3. \$800,000 from the NJCEP Commercial Programs

The original Board approved budget for the NJCEP Residential Programs sub- program was \$48.14 million. As a result of the previous re-alignment and this additional re-alignment of \$1.76 million, the new budget for the NJCEP Residential Programs sub-program will be \$56.5 million. With this re-alignment, the Company will not exceed its previously BPU-approved budget of \$81.3 million for the EEP IV program.

Respectfully,

Deborah M. Franco
