Subject: [EXTERNAL] Electric car charging stations suggestions
Date: Sunday, August 8, 2021 9:15:00 AM

Hello,

A few electric car charging stations suggestions:

1. HAVE THEM ALL TAKE CREDIT OR DEBIT CARDS!
2. Charge by the kilowatt-- NOT BY THE HOUR
3. **Because some are lower or higher in amps, charging by the hour would not be an even or fair deal if a lower amperage/wattage station would be billed by the hour.
4. Some companies you have to join (like a yearly membership with fees) -this is unfair to the consumer not knowing exactly where they would need a recharge on a trip and use other companies.

Thank You,

Russell Barbone
