Honorable Phil Murphy
Office of the Governor
225 West State Street
Trenton, New Jersey 08068

**Re: I/M/O the Implementation of L. 2018, c. 16 Regarding the Establishment of a
Zero Emission Certificate Program for Nuclear Power Plants
BPU Docket No.: EO18080899**

**Demand for Release of the Board's Expert Levitan Report Assessing
the Need for ZEC Subsidies to PSEG**

Dear Governor Murphy:

Attached please find for your information a letter sent today to the New Jersey Board of Public Utilities by the undersigned interest groups representing seniors, the environment, ratepayers, customers, businesses and competitors.

It requests that the Board release its independent consultant report, (the "Levitan Report") assessing whether or not PSEG's nuclear plants are entitled to any Zero Emission Certificate subsidies based on his independent, neutral assessment of the current and projected financial condition of the plants and whether they meet the statutory standard for a subsidy.

We anticipate the Board will consider the matter of the award of a ZEC subsidy at its meeting this Thursday, April 18 to meet its statutory deadline. To date, the Board has not released the Levitan consultant report. The public deserves to see the report, its evaluation and conclusions and to have the opportunity to comment on it before the Board acts if the promise you made when you signed the ZEC legislation into law to have the BPU conduct an open, transparent evaluation process is to have meaning.

We thank you for your consideration of the foregoing.

Respectfully submitted,
