**RE: IN THE MATTER OF THE ESTABLISHMENT OF
A UNIVERSAL SERVICE FUND PURSUANT TO
SECTION 12 OF THE ELECTRIC DISCOUNT AND
ENERGY COMPETITION ACT OF 1999
BPU DOCKET NO. EX00020091**

**NEW JERSEY NATURAL GAS COMPANY
2022/2023 ANNUAL COMPLIANCE FILING FOR
THE UNIVERSAL SERVICE FUND PROGRAM FACTOR
WITHIN THE SOCIETAL BENEFITS CHARGE RATE
BPU DOCKET NO. ER2206_____**

Dear Acting Secretary Diaz:

Please accept for filing in the Universal Service Fund (“USF”) proceeding captioned above the 2022/2023 USF/Lifeline Compliance Filing (“Compliance Filing”) submitted by New Jersey Natural Gas Company (“NJNG” or the “Company”). Pursuant to Orders of the New Jersey Board of Public Utilities (“Board”) dated April 30, 2003, July 16, 2003, June 30, 2004, and June 22, 2005, an annual compliance filing for prospective USF rates is required on or before July 1st of each year.

In order to streamline the Board’s review of the required Compliance Filings from each New Jersey electric and natural gas company (collectively, the “Utilities”), the Utilities agreed to jointly submit one primary document containing the detailed rationale and supporting documentation for joint recommendations regarding the statewide USF/Lifeline rates. That information has been provided within the compliance filing of Public Service Electric and Gas Company (“PSE&G”) (“Joint Compliance Filing”). The individual companies then submit abbreviated Compliance Filings supporting their individual positions and relying on the overall submission and positions included within the Joint Compliance Filing.

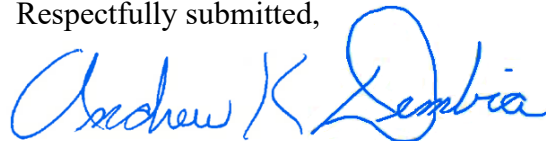

Therefore, NJNG accepts and relies on the 2022/2023 rate calculation template submitted in the Joint Compliance Filing for natural gas, including the requested statewide after-tax USF/Lifeline natural gas recovery rate of \$0.0153 per therm. The USF component is decreasing by \$0.0035 per therm and the Lifeline component is decreasing by \$0.0002 per therm. These rates, resulting in an after-tax decrease of \$0.0037 per therm (from the current recovery rate of \$0.0190 per therm), represent a decrease of approximately 0.27 percent on the average monthly bill for a residential heating customer, as shown on Exhibit NJNG-A attached hereto. Proposed tariff sheets are attached hereto as Exhibit NJNG-B.

NJNG requests that the Board accept its Compliance Filing in conjunction with the Joint Compliance Filing and issue an Order granting the approval of a new statewide after-tax natural gas USF/Lifeline recovery rate of \$0.0153 per therm (an after-tax decrease of \$0.0037 per therm to the current statewide natural gas USF/Lifeline rate of \$0.0190 per therm) for natural gas service effective October 1, 2022, and finalizing the current interim statewide natural gas USF/Lifeline rate of \$0.0190 per therm.

In accordance with the Order issued by the Board in connection with I/M/O the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic for a Temporary Waiver of Requirements for Certain Non-Essential Obligations, BPU Docket No. EO20030254, Order dated March 19, 2020, this document is being electronically filed. No paper copies will follow.

Kindly acknowledge receipt of this Compliance filing by emailing back an acknowledgment stating receipt of this letter and enclosures. Copies are being provided electronically to all individuals listed on the attached service list.

Respectfully submitted,

Andrew Dembia, Esq.
Regulatory Affairs Counsel

SERVICE CLASSIFICATION - GSL**GENERAL SERVICE - LARGE (continued)****SPECIAL PROVISIONS*****I. Applicable to All Customers in this Service Classification******1. Determination of Demand***

The highest monthly average daily usage (HMAD) that occurs in any billing period will be used to calculate the Demand Charge. The HMAD shall be determined based upon the Customer's highest normalized average daily usage for a month in the most recent twenty-four (24) month period. Estimated data may be used when actual data is not available. At least once a year, the Company shall review and modify, if necessary, each GSL customer's HMAD based upon the most recent twenty-four (24) months of billing information. Any modification will be on a prospective basis. The Company reserves the right to determine the HMAD for any Customer by actually metering daily usage.

2. Metering

An Automated Meter Reading (AMR) device with daily meter reads will not be required for this service. However, the Company reserves the right to install an AMR if it believes such a device will provide a more accurate HMAD than the Determination of Demand set forth above. Should the Company decide to install an AMR, the Customer shall furnish the necessary infrastructure to support the AMR, including, but not limited to, an electrical supply and phone line, or data plan, for the operation of the device, in an area acceptable to the Company.

When a remote meter reading device is requested by the Customer, it shall be installed at the Customer's expense if the installation is deemed feasible by the Company.

Should the Company decide to install an AMR or a Customer request an AMR, the installation shall be in accordance with Paragraph 6.10 of the Standard Terms and Conditions.

3. Annual Review

The Company shall review, at least once a year, each GSL customer's annual usage based on the most recent twelve (12) months of billing information to determine if the General Service - Small ("GSS") Service Classification is applicable to the Customer. If the Customer's normalized annual usage is less than or equal to 4,500 therms, the Customer will be switched to GSS prospectively.

4. Air Conditioning and Pool Heating

Upon separate application, GSL Customers who have installed and are using gas air conditioning and/or pool heating equipment will be billed on the above Monthly Rates and will be billed a credit of (\$0.2442) per therm for all monthly consumption of gas for services rendered between May 1 and September 30 of each year. This credit is the difference between the delivery charge for service rendered between May 1 and September 30 of each year under this Special Provision of \$0.~~3438.3401~~ per therm which includes \$0.1081 per therm margin, all appropriate riders, taxes, assessments and surcharges, and the delivery charge for Service Classification GSL.
