Subject: [EXTERNAL] Docket No. QO21010085 addendum comments

Hi Paul,

My name is Kartik and I am the new Mid-Atlantic Regulatory Director at Vote Solar. Our organization recently submitted comments for Docket No. QO21010085 jointly with the Coalition for Community Solar Access, New Jersey Solar Energy Coalition, Solar Energy Industries Association. However, there was a slight miscommunication and one of the comments Vote Solar wanted to uplift was omitted from the final joint submission.

I'm not sure where things stand with the comment review process, but I was wondering if it were at all possible to submit additional content to the docket for consideration by Staff, as it is of high priority to Vote Solar. These comments would be submitted solely on behalf of Vote Solar, and separate from the joint comments submitted last week. You can find these comments attached to this email.

We would also be happy to find time to discuss the content of these comments with Staff if that may be of interest.

Finally, any clarity you may have about the convening of a hosting capacity mapping working group would be greatly appreciated, as this could be another forum where we can bring up the priorities highlighted in the attached document.

Thanks so much for your help with this!

Regards,
Kartik
