To: Secretary, BPUBoard [BPU]
Subject: [EXTERNAL] Docket No. GO23020099 - Individual Public Comment

NJBPU,

GET OFF DIRTY GAS!

BPU must not approve any fossil fuel gas or RNG infrastructure projects other than those needed to ensure the safety of the current gas distribution systems until real plans are being implemented to meet the State's clean energy (100% by 2035) and carbon reduction (50% by 2030) goals for the many reasons and more laid out in [Empower NJ's comments](#) submitted as part of this proceeding.

Don't betray the promised clean energy plans! The storms are worsening, and their economic and environmental costs are increasing, droughts and flooding are increasing, and oceans are boiling, while minorities in local communities in power plant zones are hit hardest by the pollution. This is no time to increase warming gases from fossil fuels into the air,

Being wealthy and free is Hell on a dead planet.

Sincerely,
Lisë Sayer
Livingston, NJ 07039
