As a resident of Newark greatly concerned about the already evident and inequitable impacts of global warming and pollution, I strongly feel that BPU must not approve any fossil fuel gas or RNG infrastructure projects other than those needed to ensure the safety of the current gas distribution systems until real plans are being implemented to meet the State's clean energy (100% by 2035) and carbon reduction (50% by 2030) goals for the many reasons and more laid out in [Empower NJ's comments](#) submitted as part of this proceeding.
