To the Secretary,

As a concerned New Jersey resident, I strongly believe the BPU must not approve any fossil fuel gas or RNG infrastructure projects other than those needed to ensure the safety of the current gas distribution systems until real plans are being implemented to meet the State's clean energy (100% by 2035) and carbon reduction (50% by 2030) goals for the many reasons and more laid out in Empower NJ's comments submitted as part of this proceeding.

Best,

Martin Andersen
