RE: Attentive Energy LLC BAFO Attestation

Dear Board Staff and Levitan & Associates,

Attentive Energy LLC (“Attentive Energy”) is excited to provide its Best and Final Offers (“BAFOs”) to the New Jersey Board of Public Utilities (“BPU”) for the Attentive Energy Two Project (the “Project”) submission into the BPU’s third offshore wind solicitation. This letter constitutes the formal attestation by an officer of Attentive Energy.

I hereby confirm that the submitted BAFOs are true and correct in all material respects as of the date when submitted, which is December 15, 2023.

Per the BPU BAFO instructions, two BAFOs must be provided for each Project option. Specifically, one BAFO must address the situation where at least 2,400 MW are awarded in total (“Scenario 1”). The other BAFO must address the situation where approximately 3,742 MW are awarded in total (“Scenario 2” and together with Scenario 1, the “Scenarios”). I hereby confirm that all of Attentive Energy BAFO responses for each Scenario constitute legal, valid, and binding obligations that shall be enforceable and thus supersede the information originally submitted in Attentive Energy LLC’s Application.

If you have any additional questions or need clarification on anything submitted in Attentive Energy’s Application or BAFOs, please do not hesitate to contact me at [christen.wittman@totalenergies.com](mailto:christen.wittman@totalenergies.com) or (508) 272-6987.

Sincerely,

A handwritten signature in blue ink that reads "Christen Wittman".

Christen Wittman  
Vice President Project Development
