Lacey Community Energy Aggregation Program
Draft Request for Proposals (RFP) and Master Performance Agreement (MPA)

Dear Ms. Golden:

Please find attached, on behalf of the Township of Lacey, Ocean County, New Jersey, in accordance with the requirements of N.J.A.C. 14:4-6.6 (i) and (l), draft bidding documents, including the form of Request for Proposals or “RFP” and Master Performance Agreement or “MPA” between the selected supplier and the Township, in connection with the Lacey Community Energy Aggregation (“LCEA”) program. The Township is served by JCP&L, with an estimated 10,000 residential electric accounts included in the initial eligibility pool for the program. These documents are being submitted for the Board Staff’s review and comment in accordance with the above-cited Government Energy Aggregation rules.

The Township Committee passed Ordinance No. 2013-21, authorizing the LCEA program, pursuant to the Government Energy Aggregation Act of 2003 – P.L. 2003, c24 (N.J.S.A. 48:3-93.1 et. seq.), whereby the Township serves as Lead Agency of the LCEA. Gabel Associates has been retained by the Township as its energy agent to assist in the implementation of the LCEA program and is responsible for the submission of the attached documents (contact information below). The Township plans to issue an RFP for electric supply on behalf of residential customers this Spring, 2024, for service beginning July 2024 or later, depending upon market conditions. Certain specific dates and statistics that are still to be determined are yellow-highlighted in the attached drafts.
