

# **APPENDIX IV**

## **Line Extension Policy**

## **CABLEVISION**

### **COMMERCIAL LINE EXTENSION RATE POLICY**

This Commercial Line Extension Rate Policy is applicable to commercial establishments only.

## CABLEVISION

### COMMERCIAL LINE EXTENSION RATE POLICY

1. Intent. It is the intent of CABLEVISION that a rate policy be established under which any businesses within the company's franchise areas would have the opportunity to obtain cable television service.

2. Applicability. This line extension rate shall apply to all cable television service extensions, aerial and underground, on public and private lands, provided by CABLEVISION.

3. Definitions.

(a) Line or Service. That situation where the company must extend its existing trunk line and/or distribution cable in order to make a tap available from which a drop line can be run so as to provide cable television service to the applicant's premises. The line or service extension shall include, but not be limited to, all poles, cables, amplifiers, extenders, splitters, taps, right-of-way acquisitions and clearing, trenching, backfilling and any other one-time costs incurred by CABLEVISION in connection with extending service to the applicant. A line or service extension shall not include facilities provided by CABLEVISION pursuant to its applicable installation rates then existing.

(b) Applicant. Any person, firm, corporation or association that applies to CABLEVISION for service to a commercial establishment in the franchise area.

(c) Commercial Establishment. Any building or structure, or portion thereof, not used for residential purposes including, but not limited to, profit and non-profit corporations or associations, which has requested the installation of cable television service requiring line or service extension as defined herein.

(d) Drop Line. That cable which connects the subscriber's television receiver to the cable transmission system by way of a tap.

(e) Tap. A connecting device inserted in the cable transmission line which allows for the connection of a drop line. An aerial or underground "drop line" constitutes a transmission cable running from the distribution or feeder cable to the subscriber's connection or receiver.

(f) Trunk Line. Transmission cable running from headend to trunk amplifiers and through each trunk amplifier in cascade in the system from which connections for distribution and feeder cable are provided.

(g) Distribution or Feeder Cable. Transmission cable which extends from the distribution amplifiers serving specific areas within the system and from which drop lines are extended.

(h) Qualified Subscriber. Any applicant who, as a potential subscriber, has committed to purchase at least the basic service from CABLEVISION for a period of not less than two (2) years.

#### 4. Schedule.

(a) Within thirty (30) days after the date on which the service is requested, but not more than ninety (90) days from the date upon which the request for service was made, CABLEVISION shall furnish the applicant with (1) an estimate request form, (2) a copy of this line extension policy, and (3) notification that service can only be provided by means of a line or service extension.

(b) If the applicant requests a written estimate within thirty (30) days after being advised that service can only be provided by means of a line or service extension, CABLEVISION shall, within sixty (60) days of such request, furnish a written estimate, a construction schedule, and a service extension contract to be signed by the applicant.

(c) The applicant must return a signed service extension agreement within thirty (30) days after receipt of the material described in Paragraph (b) together with a check in the amount of \$50.00 representing a service extension deposit which will be credited against the applicant's contribution in aid of construction invoice to the applicant which must be signed and returned to CABLEVISION with the full payment before construction will commence.

(d) If the applicant fails to meet any of the applicable deadlines or any of the terms herein before set forth without the approval of CABLEVISION, any obligations pertaining to the proposed line or service extension shall cease and be of no further force or effect.

#### 5. Commercial Line Extension Rate Charges.

A commercial establishment requesting line or service extension shall bear all of the following costs to make a tap available from which a drop line may be installed:

(a) The actual cost to CABLEVISION of materials and equipment necessary to make service available plus shipping charges and applicable taxes.

(b) The actual labor costs incurred by CABLEVISION, exclusive of benefits.

(c) The actual costs of designs, surveys, prints and engineering or other such labor involved in the preparation or actual construction required.

(d) The direct costs of any easements, make-ready or other third party actions required to perform and complete construction such as, but not limited to, power companies, telephone companies, road work, trenching or the like.

(e) In addition, the applicant shall pay to CABLEVISION a sum equal to twenty percent (20%) of the entire actual cost of construction as set forth above.

(f) In the event additional commercial subscribers come on-line in an area in which service extension has been provided in accordance herewith, each additional subscriber shall, in addition to the applicable installation rate, be required to contribute their pro-rata share of the original construction costs. Said pro-rata share shall be derived by dividing the original construction cost by the number of then existing on-line subscribers including the additional subscriber(s).

(g) Any funds collected from additional subscribers will be retained by CABLEVISION in an interest-bearing account and distributed equitably so as to equalize all subscriber construction contributions. Distribution will be made two years after the original service extension was provided. After said two year period, there shall be no further apportionment of the original construction cost.

6. Record Keeping and Annual Reports. CABLEVISION shall maintain appropriate records of its costs, subscriber and applicant billings, and revenues resulting from a request for or the construction of a service extension.

7. Ownership of Facilities. CABLEVISION shall own and maintain the facilities for which a service extension is made and any applicant-subscriber shall not acquire any interest herein.

8. Method of Service Extension. CABLEVISION reserves the right to provide either an aerial or underground service extension.

9. Term of Service. The minimum term of at least basic subscriber service for an applicant requesting service extension, or his successors and assigns, shall be twenty-four (24) months after the service extension has been energized. Said term shall be guaranteed by the applicant in the service extension contract specified in Paragraph 4(c) hereof.
