Re: In the Matter of the Petition of Jersey Central Power and Light Company for
Approval of a Zero Emission Certificate Recovery Charge
Docket No. EO24010054

Dear Secretary Golden:

On January 17, 2024, Jersey Central Power & Light Company (“JCP&L” or the “Company”) filed its letter Petition and attachments (“Petition”) regarding Zero Emissions Certificate Recovery Charge with the New Jersey Board of Public Utilities (“BPU” or the “Board”) pursuant to the Board’s Order (dated April 13, 2022) in the above-referenced matter. Based upon email and telephone conversations between JCP&L and Board Staff, the Company has made an update to its original Petition due to a typographical error to the indicated energy year. As filed, the Petition states:

“In the legislation establishing the Zero Emissions Certificate Recovery Charge (“ZECRC”) the New Jersey Electric Distribution Companies (“EDCs”) were directed to return excess monies in each EDC’s separate, interest-bearing account to its retail distribution customers at the end of each energy year. In this filing, JCP&L is proposing to refund the excess collections from **Energy Year 2022**.”¹

As stated, **Energy Year 2022** is a typographical error and the Petition is revised to reflect **Energy Year 2023**, which is the correct energy year for this filing. Moreover, the Company has removed its request to allow future filings to be handled by a compliance filing 30 days before a

ZEC Reconciliation Charge rate change because of the Board's prior decision denying this request in its Order dated February 17, 2023².

Accordingly, JCP&L hereby files a revised Petition with the BPU, which the Company believes addresses the concerns identified by Board Staff.

Clean and redline versions of JCP&L's revised Petition are enclosed, with the redline version tracking changes made to JCP&L's original Petition. JCP&L looks forward to the Board's consideration of this filing at the Agenda Meeting on June 27, 2024.

In accordance with the Board's Order in Docket No. EO20030254, dated March 19, 2020, JCP&L is providing this filing by electronic mail only. No physical copies will follow. Please kindly confirm your receipt and acceptance of this filing by electronic mail at your earliest convenience.

Please do not hesitate to contact me should you have any questions about this revised filing.

Dear Secretary Golden:

Jersey Central Power & Light Company (“JCP&L” or the “Company”) is electronically filing this letter submission and attachments with the New Jersey Board of Public Utilities (“BPU” or the “Board”) in accordance with the Board’s Order in the above-referenced captioned proceeding dated April 13, 2022.

In the legislation establishing the Zero Emissions Certificate Recovery Charge (“ZECRC”) the New Jersey Electric Distribution Companies (“EDCs”) were directed to return excess monies in each EDC’s separate, interest-bearing account to its retail distribution customers at the end of each energy year. In this filing, JCP&L is proposing to refund the excess collections from Energy Year 2023.

The Company refunds any excess ZECRC collection and corresponding interest over a twelve-month period via its previously established “ZEC Reconciliation Charge”, which is a component of the ZECRC and is currently set at $-\$0.000089$ per kilowatt-hour (excluding Sales and Use Tax (“SUT”)). In this filing, the Company is proposing to reset the ZEC Reconciliation Charge to $\$0.000000$ per kilowatt-hour (including and excluding SUT). If approved, the Company’s request in its compliance filing will result in an increase to the monthly bill of a typical residential customer using 783 kilowatt-hours per month of $\$0.07$, or 0.06%, from $\$118.30$ per month to $\$118.37$ per month based on the proposed Rider ZEC and other rates effective as of January 1, 2024, including SUT.

This filing includes the following:

- Attachment A – Calculation of the ZEC Reconciliation Charge
- Attachment B – Redlined and Final Electric Tariff Sheets
- Attachment C – Notice of Filing and Notice of Public Hearings

Furthermore, as directed by the Board's Order in Docket No. EO20030254, dated March 19, 2020, the Company hereby submits this filing via electronic delivery only to the Board Secretary, and will suspend submitting such filing as paper documents until the Board directs otherwise. Kindly have the Office of the Secretary or the Office of Case Management confirm receipt by email to the undersigned (jameehan@firstenergycorp.com).

Thank you for your attention and consideration in this matter. If you have any questions regarding this compliance filing, do not hesitate to contact me.

Respectfully submitted,

Dear Secretary Golden:

Jersey Central Power & Light Company (“JCP&L” or the “Company”) is electronically filing this letter submission and attachments with the New Jersey Board of Public Utilities (“BPU” or the “Board”) in accordance with the Board’s Order in the above-referenced captioned proceeding dated April 13, 2022.

In both situations described above, the Company will make a compliance filing, no later than 30 days prior to any change to the ZECRC.~~

Notice of a Filing and Notice of Public Hearings

**In the Matter of
Jersey Central Power & Light Company's Petition for Approval
of a Zero Emission Certificate Recovery Charge**

BPU Docket No. XXXXXXXX

PLEASE TAKE NOTICE that, on January 5, 2024, Jersey Central Power & Light Company ("JCP&L" or the "Company") made a compliance filing with the New Jersey Board of Public Utilities ("Board") seeking to increase its ZEC Recovery Charge ("ZECRC"). The ZECRC reflects the emission avoidance benefits of the continued operation of selected nuclear plants as determined in L. 2018, c.16 (the "ZEC Law"). The ZECRC has been set at the rate specified in the ZEC Law and may be adjusted periodically by the Board, in accordance with the methodology provided for in the ZEC law. In accordance with the ZEC Law, the proceeds of the ZEC Charge will be placed in a separate account, which amount the Company may use for general corporate purposes, with interest applied at the Company's short-term borrowing rate as calculated each month and will be used solely to purchase ZECs and to reimburse the Board for its reasonable, verifiable costs incurred to implement the ZEC program.

If approved, the Company's request in its Petition will result in an increase to the monthly bill of a typical residential customer using 783 kilowatt-hours per month of \$0.07, or 0.06%, from \$118.30 per month to \$118.37 per month based on the proposed Rider ZEC and other rates effective as of January 1, 2024, including sales and use tax.

The following illustrative chart shows the estimated monthly bill impacts, in both dollars and percentages, to class average customers based upon a comparison of present and proposed rates and the approximate net effect of the proposed increases in charges on customers in various rate classes. The actual effect on specific customers will vary according to the applicable rate schedule and level of the customer's usage.
