Dear Board Secretary Sherri L. Golden,

As a New Jersey resident, I'm writing to you on Docket Number QO24020126 to urge you NOT to vote for updated Energy Master Plan which was intended to create a framework for our state to meet the goal of 100% clean energy by 2035 by providing a certainty for utilities, energy suppliers, and businesses. This plan is dangerous and poorly thought out. It exchanges one environmental issue for many others including intentional pollution of our ocean and permitting killing of animals recently removed from the endangered species list.

Thank you for your time, and I look forward to New Jersey's clean energy future!

Sincerely,
Brigid Bandomer
