Subject: [EXTERNAL] clean energy (DOCKET NO. QO24020126 – 2024 ENERGY MASTER PLAN)

Dear Board Secretary Sherri L. Golden,

As a New Jersey resident, I'm writing to you on Docket Number QO24020126 to urge you to stop all OSW projects immediately.

Climate change affects everyone regardless of zip code, so I urge you to implement a plan that greatly reduces our emissions in a way that also benefits our communities and improves people's lives, such as gas, and nuclear solutions

To reach our clean energy goals and reduce emissions, New Jersey must reduce harmful pollution from the transportation sector, decrease emissions from the building sector, maximize energy efficiency, and help residents lower their energy bills. Wind farms do nothing to reduce these emissions and only raise rate payer rates

Lastly, I urge you to think about New Jersey's most vulnerable communities who may not ever recover from green energy's diastorous effects. In order to make a fair transition to clean energy, all New Jerseyans must have access to affordable clean energy. Without decimating our entire Endangered Whale Species.

Thank you for your time and I look forward to legislation that moves NJ away from this horrible plan.

Sincerely,
Mary Beth Feeney
