Subject: [EXTERNAL] Please DO NOT support clean energy (DOCKET NO. QO24020126 – 2024 ENERGY MASTER PLAN)

Dear Board Secretary Sherri L. Golden,

As a New Jersey resident, I'm writing to you on Docket Number QO24020126 to urge you NOT to support OSW development. You may be in favor and wear a nice OSW pin, but as a citizen of NJ, I'm not a fan!

NJ shore and ocean is perhaps NJ greatest asset. Please don't destroy it!

The fear of climate change is over-stated as OSW is the only answer for NJ. IT'S NOT! Look at all the empty flat roof space in NJ! There's no reason solar and nuclear can't play a greater role. Plant some trees! Anything other than destroying our oceans and coast line. Numerous "experts" have noted that OSW will not reverse climate change. There is nothing green about the installation of OSW and the installation impacts are far from green!

The reality of cheaper energy, thousands of jobs is a pipe dream. If you're going to follow the european model, multiple companies are cutting jobs and laying people off of OSW.

Thank you for your time, and I look forward to New Jersey's clean energy future, just not with OSW!

Sincerely,
Eric Nussbaum
