Dear Board Secretary Sherri L. Golden,

As a New Jersey resident, I'm writing to you on Docket Number QO24020126 to urge you to ensure that the updated Energy Master Plan creates the framework for our state to meet the goal of 100% clean energy by 2035 by providing a certainty for utilities, energy suppliers, and businesses.

If this involves turbines I am against this. It is not sustainable. It is going to raise our energy costs. So far the Biden/Murphy plan is going to bankrupt us. You have no idea what to do with these in ten years so I really have to question your plan. Lastly it is disgusting the killing of our whales and dolphins. I hate your plan on turbines

Sincerely,

Anne Johnston
