Dear Board Secretary Sherri L. Golden,

As a New Jersey resident, I'm writing to you on Docket Number QO24020126 to urge you to throw that piece of garbage down the toilet! The so called updated Energy Master Plan creates the framework for our state to become littered with UNRELIABLE AND UNFRIENDLY TO OCEAN LIFE in order to meet the UNACHIEVABLE goal of 100% clean energy by 2030 to New Jersey's clean energy future!

The utter stupidity of REDUCING CARBON DIOXIDE from the air has been proven to be UNNECESSARY! CO2 is GOOD for healthy plants and animals! Stop ramming our public with inefficient ineffective offshore wind turbines that break easily and have zero plan for recycling broken blades as well as massive concrete structures all along the eastern seaboard!

STOP KILLING THE WHALES! WE HATE YOU FOR THIS!

Sincerely,  
Cara Lane
