Subject: [EXTERNAL] DOCKET NO. QO24020126 – 2024 ENERGY MASTER PLAN

Dear Board Secretary Sherri L. Golden,

As a New Jersey resident, I'm writing to you on Docket Number QO24020126 to urge you to STOP the Offshore Wind Turbines. They're going to cause IRREVERSIBLE HARM to MANY things ... sea life, birds, military tourism, etc. RADAR will be affected for military ships & planes, cargo ships, fishing boats, commercial & private planes. They will all have issues which will affect our national security, fishing industry, supply chain & MORE. In addition, putting large metal objects in a body of corrosive salt water isn't smart. It's also a hurricane zone that has other VERY STRONG & DESTRUCTIVE STORMS like Nor'Easters. These turbines REQUIRE a lot of lubricants and oils to run, thus making them NOT "green at all". In addition the constant hum & vibration will affect sea life for many miles. The risks totally outweigh any potential benefits, the opposite will happen... IRREVERSIBLE HARM.

Sincerely,

Lara Trent
