Att: Signers of Public Service Changes

Sir:

Received notice that my electric-gas bills are going up again. These bills are already atrocious (sp) and should be reduced - not raised. Why?

When all living expenses are raised just as they were when gasoline went haywire - we will be suffering raised prices again

July 10, 2024

Again today I received a bill from a Utility for a slight raise of \$2-3 a quarter. Can the Water Company be far behind?

Can't the people behind Utilities be good enough to bite the bullet until ~~now~~ ~~they~~ ~~stop~~ ~~their~~ ~~stomped~~ ~~to~~ ~~gather~~ ~~more~~ ~~and~~ ~~more~~ profits and bring in more cheap foreign goods?

Can't you guide the rest of them?

Best of Luck -

Barbara Moninger
