

Atlantic Shores Best Case CABLE Route (Least Disruption) Through Densely Populated Areas of Sea Girt, Manasquan & Wall The Prill/Andrews Proposed Route Travels From Ocean to Lightning Jacks Marina #3 (1st Landfall) Via The Manasquan River

Imagery ©2024 Airbus, Landsat / Copernicus, Maxar Technologies, Map data ©2024 2000 ft

This Slide Shows the Best Possible Route from the Ocean to the Larrabee Substation that the BPU Could Choose for the Onshore Cable. It is the Most Direct Path out of the Several that are still being considered by the NJBPU. This Route, however, will have a Devasting Impact on the Residents, Streets, and Bike path in Seagirt, Manasquan, and Wall Townships.
