Re: Rockland Electric Company's Annual Societal
Benefits Charge Filing Reconciling Costs for the 12
Months Ending July 31, 2025 and Estimating Costs
for the 12 Months Ending July 31, 2026
BPU Docket No: _____

Dear Secretary Lewis:

Rockland Electric Company ("RECO" or "the Company") hereby submits for filing with the Board of Public Utilities (the "Board") Leaf No. 56 to its Schedule for Electric Service B.P.U. No. 3 – Electricity (the "Electric Tariff") in draft format. This filing is submitted in accordance with General Information Section No. 33 of the Electric Tariff, which requires the submission of an annual filing to reconcile any over- or under-recovered balances recovered through the Societal Benefits Charge ("SBC") and to provide for current program cost recovery.

Specifically, paragraphs (1), (2), and (4) of General Information Section No. 33 provide that the SBC shall include current costs and any refund or recovery of prior period over- or under-collection balances relating to (a) the Company's demand-side management programs ("DSM Programs"); (b) the Clean Energy Program; and (c) Uncollectible Expense. In accordance with General Information Section No. 33 of the Electric Tariff, the rate component of the SBC relating to the DSM Programs and the Clean Energy Program, and the rate component of the SBC relating to Uncollectible Expense are to be reflected in the SBC effective August 1. As noted in General Information Section No. 33, the SBC also provides for the recovery of costs relating to the Universal Service Fund and Lifeline. In contrast to the rate components of the SBC relating to the DSM Programs and the Clean Energy Program and Uncollectible Expense, the Universal Service Fund and Lifeline rate components of the SBC, 0.2212 ¢/kWh and 0.0757 ¢/kWh including Sales and Use Tax ("SUT"), remain unchanged.

Enclosed are the Company's workpapers detailing the reconciliation and calculation of the rate components of the SBC relating to the DSM and Clean Energy Programs and Uncollectible Expense. The result of this reconciliation is: (1) a decrease in the DSM and Clean Energy Program rate component of the SBC from the currently effective rate of 0.3509 ¢/kWh to a rate of 0.3151 ¢/kWh, including SUT; and (2) an increase in the Uncollectible Expense rate component from the currently effective rate of 0.0316 ¢/kWh to a rate of 0.0970 ¢/kWh.

The resulting proposed SBC set forth on Leaf No. 56 is 0.7090 ¢/kWh, including SUT. This rate reflects (1) a 0.3051 ¢/kWh rate component, including SUT, for forecast DSM and Clean Energy Program spending for the twelve-month period ending July 31, 2026 of \$4,711,955;¹ (2) a 0.010 ¢/kWh rate component, including SUT, reflecting an under-collection of \$154,661 in DSM and Clean Energy Program spending for the period August 1, 2024 through July 31, 2025; (3) a 0.0422 ¢/kWh rate component, including SUT, for forecast Uncollectible Expense for the twelve-month period ending July 31, 2026 of \$652,985 ; (4) a 0.0548 ¢/kWh rate component, including SUT, reflecting an under-collection of \$845,898 in Uncollectible Expense; (5) a 0.2212 ¢/kWh rate component, including SUT, relating to Universal Service Fund; and (6) a 0.0757 ¢/kWh rate component, including SUT, relating to Lifeline.

The revised SBC is proposed to become effective August 1, 2025.

Because of the proposed increase in the combined DSM and Clean Energy Program and Uncollectible Expense components of the SBC, RECO has appended hereto a form of Notice of Filing and of Public Hearings. This form of notice sets forth the requested changes and will be placed in a newspaper having a circulation within the Company's service territory.²

Please note that the Company is making this filing solely in electronic form pursuant to the Board's directive in its Emergency Order dated March 19, 2020 in BPU Docket No. EO20030254.

Questions regarding this filing can be directed to Yan Flishenbaum at (212) 460-4627.

Sincerely,

/s/ William A. Atzl, Jr.

Director – Rate Engineering

¹ Since the Board has not yet approved Clean Energy Program spending beyond June 2025, the Company's projected Clean Energy Program spending for the twelve month period ending July 2026, as shown on page 5 of 7 of the enclosed work papers, reflects the fiscal year 2025 amounts approved by the BPU in its Order dated June 27, 2024 in BPU Docket No. QO24040223.

² The Company and Board Staff will consult and determine the dates and times for the public hearings, which dates and times will be included in the form of notice placed in the newspaper.

DRAFT

GENERAL INFORMATION

No. 33 SOCIETAL BENEFITS CHARGE ("SBC")

The SBC shall be applied to the kWh usage on the bills of all customers served under this Schedule. The SBC shall include costs, including current costs and any refund or recovery of prior period over- or under-collection balances, related to:

- (1) demand-side management ("DSM"), including the costs associated with DSM programs and DSM bidding programs;
- (2) Clean Energy Program, ("CEP");
- (3) Universal Service Fund and Lifeline; and
- (4) Uncollectible Expense

The SBC to be effective on and after the date indicated below shall be set at 0.6794 cents per kWh, including sales and use tax ("SUT"). The SBC includes the following rate components:

	SBC Rate Components (¢ per kWh)	
	Excluding SUT	Including SUT
DSM & CEP	0.32940.2955	0.35090.3151
Universal Service Fund	0.2075	0.2212
Lifeline	0.0710	0.0757
Uncollectible Expense	0.02960.0910	0.03160.0970
Total SBC	0.63720.6650	0.67940.7090

The difference between actual costs incurred by the Company for the SBC components described above and SBC recoveries will be deferred, with interest, for future recovery in accordance with the Company's Plan for Resolution of Proceedings approved by the Board in its Summary Order dated July 28, 1999 and Final Order dated July 22, 2002 in Docket Nos. EO97070464, EO97070465 and EO97070466.
